Directors' Report

The directors of WisdomTree Hedged Commodity Securities Limited (“HCSL” or the “Company”) submit herewith the annual report and financial statements of the Company for the year ended 31 December 2024.

Directors

The names and particulars of the directors of the Company during and since the end of the financial year are:

Peter Ziemba
Bryan Governey
David Middleton (Appointed on 03 July 2024 and Resigned on 09 August 2024)
Christopher Foulds (Resigned on 21 January 2025)
Steven Ross (Resigned on 21 January 2025)
Olivia Vuillemin (Appointed on 21 January 2025)
Vinod Rajput (Appointed on 21 January 2025)

Directors' Interests

No director has an interest in the Shares of the Company as at the date of this report.

Principal Activities

The Company's principal activity is the issue and listing of currency-hedged commodity securities (“Currency- Hedged Commodity Securities”).

Currency-Hedged Commodity Securities are undated secured limited recourse financial instruments designed to track the price of individual commodity futures contracts or baskets of commodity futures contracts for which the effects of foreign exchange risks are hedged, and give investors an exposure similar to that which could be achieved by managing a long fully cash collateralised unleveraged position in futures contracts of specific maturities, less applicable fees. However, unlike managing a futures position, Currency-Hedged Commodity Securities involve no need to roll from one futures contract to another, no margin calls, and no other brokerage or other costs in holding or rolling futures contracts (although security holders incur other costs in holding Currency-Hedged Commodity Securities). No trading or management of futures contracts is required by the Company. Currency-Hedged Commodity Securities allow investors to buy and sell their interest through the trading of a security on the London Stock Exchange and any other exchange to which that security may be admitted to trading from time to time.

Currency-Hedged Commodity Securities are backed by commodity contracts (“Commodity Contracts”) with terms corresponding to the terms of Currency-Hedged Commodity Securities. The Company gains exposure to the movements in the commodity indices by holding corresponding Commodity Contracts. The Company is currently party to two facility agreements, one with Citigroup Global Markets Limited (“Citigroup”) and one with Merrill Lynch International (“Merrill Lynch”) (together the “Commodity Contract Counterparties”), enabling the Company to create and cancel Commodity Contracts on an ongoing basis.

Each time Currency-Hedged Commodity Securities are issued or redeemed, matching Commodity Contracts between the Company and a Commodity Contract Counterparty are created or cancelled by the Company.

The price of each class of Currency-Hedged Commodity Security is calculated on a daily basis and reflects movements in the commodity index relevant to that class since the previous day, adjusted by any applicable fees. Therefore, the return for a particular class of Currency-Hedged Commodity Security will primarily be based on the performance of the relevant commodity index.

Each currency-hedged commodity index is calculated by reference to the corresponding un-hedged commodity index and provides a hedge against movements in the exchange rate between the US Dollar and the currency of denomination of that commodity index, which is rebalanced on a daily basis. As the Company issues securities which provide exposure to the daily movements in one of the currency-hedged Commodity Indices and the Company gains exposure to the movements in that Commodity Index by holding corresponding Commodity Contracts, the Company is not required to undertake any currency hedging activities.

The Company earns a management fee and a licence allowance based upon the number of Currency-Hedged Commodity Securities in issue. These fees are expressed as an annual percentage, calculated on a daily basis and reflected in the net asset value (“NAV”) of the Currency-Hedged Commodity Securities on a daily basis, and paid monthly in arrears.

Directors' Report (Continued)

Principal Activities (continued)

The Company has entered into a service agreement with WisdomTree Management Jersey Limited (“ManJer” or the “Manager”), whereby ManJer is responsible for supplying or procuring the supply of all management and administration services required by the Company, (including marketing) as well as the payment of costs relating to the listing and issue of Currency-Hedged Commodity Securities. In return for these services, the Company has an obligation to remunerate ManJer with an amount equal to the aggregate of the management fee, licence allowance and the creation and redemption fees (the “ManJer Fee”). The management fee and licence allowance are transferred directly to ManJer by the Commodity Contract Counterparties under the terms of the Commodity Contracts.

Creation and redemption fees are included and settled between the Authorised Participants and the Commodity Contract Counterparties as part of each creation or redemption, and are transferred directly to ManJer by the Commodity Contract Counterparties on a monthly basis. Accordingly, there are no cash flows through the Company.

Review of Operations

The most recent Prospectus was issued on 30 September 2024. As at 31 December 2024, the Company had the following number of classes, in aggregate, of Currency-Hedged Commodity Securities in issue and admitted to trading on the following exchanges:

	London Stock Exchange	Borsa Italiana	Deutsche Börse
Classic and Longer Dated GBP-Hedged Commodity Securities	3	-	-
Classic and Longer Dated EUR-Hedged Commodity Securities	-	17	12
Total Currency-Hedged Commodity Securities	3	17	12

The Company has entered into contractual obligations to issue and redeem Currency-Hedged Commodity Securities at set prices on each trading day. These prices are based on an agreed formula published in the Prospectus, and are equal to the published NAVs of each class of Currency-Hedged Commodity Security. Each time Currency-Hedged Commodity Securities are issued or redeemed, matching Currency-Hedged Commodity Contracts between the Company and a Currency-Hedged Commodity Contract Counterparty are created or cancelled by the Company.

IFRS 13 requires the Company to identify the principal market for the Currency-Hedged Commodity Securities and to utilise the available price within that principal market. The directors consider the stock exchanges where the Currency-Hedged Commodity Securities are listed to be the principal market and as a result the fair value of the Currency-Hedged Commodity Securities is the on-exchange price as quoted on the stock exchange demonstrating active trading with the highest trading volume on each day that the price is obtained. As a result of the difference in valuation between Commodity Contracts and Currency-Hedged Commodity Securities there is a mis-match between the values recognised, and the results of the Company reflect a gain or loss on the difference between the NAV of the Commodity Contracts and the price of Currency-Hedged Commodity

The Company recognises its financial assets (Commodity Contracts) and financial liabilities (Currency-Hedged Commodity Securities) at fair value in the Statement of Financial Position. The gain or loss on Currency- Hedged Commodity Securities and Commodity Contracts is recognised through profit or loss in line with the Company’s accounting policy. This is presented in more detail in note 7 to these financial statements.

The Company is entitled to a management fee and licence allowance which are calculated on a daily basis:

- classic and longer dated GBP-Hedged Commodity Securities have a management fee rate of 0.49% per annum;
- classic and longer Dated EUR-Hedged Commodity Securities have a management fee rate of 0.69% per annum; and
- all Commodity Securities are subject to the licence allowance of 0.05% per annum.

The Company is also entitled to apply creation and redemption fees on the creation and redemption of Currency-Hedged Commodity Securities.

Directors' Report (Continued)

Review of Operations (continued)

During the year, the Company generated income from creation and redemption fees, management fees and licence allowance as follows:

	2024	2023
	USD	USD
Creation and Redemption Fees	165,215	227,903
Management Fees and Licence Allowance	1,261,743	1,292,645
Total Fee Income	1,426,958	1,520,548

Non-GAAP Performance Measures

Under the terms of the service agreement with ManJer, the Company accrued expenses equal to the management fees, licence allowance and creation and redemptions fees, which, after taking into account other operating income and expenses, resulted in a result before fair value movements for the year of USD Nil (2023: USD Nil).

As the difference in the valuation of Commodity Contracts (held to support the Currency-Hedged Commodity Securities) and Currency-Hedged Commodity Securities would be reversed on a subsequent redemption of the Currency-Hedged Commodity Securities and cancellation of the corresponding Commodity Contracts (as described further in note 6), the Company presents an adjusted Statement of Profit or Loss and Other Comprehensive Income and an adjusted Statement of Changes in Equity in note 14 of the financial statements.

Recent Developments

As of 21 January 2025, the administration and company secretarial services provided to ManJer changed from R&H Fund Services (Jersey) Limited ("R&H" or the "Administrator") to Apex Financial Services (Alternative Funds) Limited, resulting in a change of ManJer's registered office and directors. At reporting date, the directors of ManJer are as follows:

Vinod Rajput
 Olivia Vuillemin
 Peter Ziemba
 Bryan Governey

Future Developments

Board members are not aware of any developments that might have a significant effect on the operations of the Company in subsequent financial periods not already disclosed in this report or attached financial statements.

Dividends

There were no dividends declared or paid during the year (2023: USD Nil). It is the Company's policy that dividends will only be declared when the directors are of the opinion that there are sufficient distributable reserves.

Going Concern

The directors continue to monitor and assess the impact of geopolitical conflicts on the assets under management of the Company and will take any potential actions needed or as required under the terms of the prospectus, as facts and circumstances are subject to change and may be specific to investments and jurisdictions.

The nature of the Company's business dictates that the outstanding Currency-Hedged Commodity Securities may be redeemed at any time by Authorised Participants and in certain circumstances by individual holders and also, in certain circumstances, may be compulsorily redeemed by the Company. As the redemption of Currency-Hedged Commodity Securities will always coincide with the cancellation of an equal amount of Commodity Contracts, liquidity risk is mitigated such that there is no material residual risk. All other expenses of the Company are met by ManJer. The directors closely monitor the financial position and performance of ManJer, its assets under management, and therefore its related revenue streams, in respect of fulfilling the obligations under the services agreement.

Directors' Report (Continued)

Going Concern (continued)

The net reported position on balance sheet, including in instances where a deficit is reported, is not considered to impact the going concern position of the Company as this position results solely due to the unrealised gains or losses on Commodity Contracts and Currency-Hedged Commodity Securities due to the accounting measurement basis applied in accordance with IFRS. As Commodity Contracts are held to support Currency-Hedged Commodity Securities, any deficit or surplus reported on unrealised positions would be reversed on a subsequent redemption of the Currency-Hedged Commodity Securities and the related cancellation of Commodity Contracts. A reported deficit is not considered indicative of any issues relating to solvency of the Company and the directors are satisfied that any obligations arising in respect of the Currency-Hedged Commodity can be managed in accordance with the terms of the applicable Prospectus. The directors consider the operations of the Company to be ongoing, with a reasonable expectation that the Company has adequate resources to continue in operational existence until 30 April 2026, and accordingly these financial statements have been prepared on the going concern basis.

Corporate Social Responsibility

Sustainability and corporate responsibility are embedded throughout the business of the WisdomTree group as I believe this benefits shareholders, employees of the WisdomTree group, investors in WisdomTree's products as well as the wider society.

Environmental, Social and Governance ("ESG") investing is guided at the WisdomTree group level by an ESG Steering Committee, which includes senior leaders from across the WisdomTree group business, and which included several sub-committees focused on particular ESG considerations, such as improving data and transparency into the ESG attributes of WisdomTree's products. Particular ESG considerations relevant to the Company's products are overseen by the directors, leveraging the work undertaken by the ESG Steering Committee. More information on WisdomTree's corporate social responsibility strategy can be found on the WisdomTree group website (<https://www.wisdomtree.eu/en-gb/wisdomtree-corporate-responsibility>).

The Board acknowledges that climate change and its impact on the global economy is of increasing interest and focus for stakeholders and that, where relevant, stakeholders will seek information from companies regarding how climate change is expected to impact the operations of the business and how climate change risk has been considered in the context of reported results.

In acknowledging the above, the Board has considered the Company's exposure to climate change and determined that due to the nature of the Company and its operations there are no directly observed impacts of climate change on the business. As a result, the Board concluded that there is no basis on which to provide extended information of analysis relating to climate change, including as part of the basis of accounting or individual accounting policies adopted by the Company.

In the above determination, the Board has concluded specifically that climate change, including physical and transition risks, does not have a material impact on the recognition and separate measurement considerations of the assets and liabilities in these financial statements as at 31 December 2024.

This conclusion is based on the fact that assets are reported at fair value under IFRS, are short dated, and as set out in note 11 (g) to the financial statements are categorised as Level 2 of the fair value hierarchy due to the use of observable, verifiable inputs, including use of third party information sources within the agreed pricing formulae (set out in the Prospectus). The liabilities are valued utilising listed market prices at the year end. These observable inputs and market prices will reflect wider market sentiment, which inherently includes market perspectives relating to the impact of climate change.

The Board recognises that government and societal responses to climate change risks are still developing and the future impact cannot be predicted. Future valuations of assets and liabilities may therefore differ as the market responds to these changing impacts or assesses the impact of current requirements differently.

Directors' Remuneration

No director has a service contract with the Company. The directors of the Company who are employees within the WisdomTree, Inc group do not receive separate remuneration in their capacity as directors of the Company. The directors of the Company who are employees of R&H Fund Services (Jersey) Limited ("R&H" or the "Administrator") do not receive separate remuneration in their capacity as directors of the Company, however R&H receives a fee from ManJer which includes services in respect of the Company, including for the provision of directors who are employees of R&H.

Employees

The Company does not have any employees. It is the Company's policy to use the services of specialist subcontractors or consultants as far as possible.

Directors' Report (Continued)

Auditor

The Independent Auditor is Ernst & Young LLP. A resolution to re-appoint Ernst & Young LLP will be proposed at the next Board meeting of the director on behalf of the sole shareholder.

Principal Risks and Uncertainties

The Currency-Hedged Commodity Securities provide investors with exposure to the performance of the relevant commodity index. Each Currency-Hedged Commodity Security is a debt instrument whose redemption price is linked to the performance of the underlying commodity index. Each class of Currency-Hedged Commodity Security is issued under limited recourse arrangements whereby the holders have recourse only to the relevant Commodity Contracts held to support the Currency-Hedged Commodity Securities and not to the Commodity Contracts of any other class of Currency-Hedged Commodity Security or the Company.

Any price movements in the value of the Commodity Contracts are wholly attributable to the holders of the Currency-Hedged Commodity Securities, therefore the Company has no residual exposure to movements in the value of the Commodity Contracts. From a commercial perspective the Company does not retain any net gains or losses or net risk exposures, as (with the exception of the impact of management fees and licence allowance) the gains or losses on the liability represented by the Currency-Hedged Commodity Securities are matched economically by corresponding losses or gains attributable to the Commodity Contracts (see detail on page 3 regarding the accounting mis-match).

Furthermore, the Company has an obligation to remunerate ManJer with the ManJer Fee, which results in the Company recognising a result before fair value movements of nil at each reporting date. As a result, the principal risks and uncertainties to which the Company is exposed has not materially changed during the year ended 31 December 2024.

Each Currency-Hedged Commodity Security is a debt instrument whose redemption price is linked to the performance of the underlying hedged commodity index. Each class of Currency-Hedged Commodity Security is issued under limited recourse arrangements whereby the holders have recourse only to the relevant Commodity Contracts held to support the Currency-Hedged Commodity Security and not to the Commodity Contracts of any other class of Currency-Hedged Commodity Security or the Company.

There is an inherent risk from the point of view of investors as the values of commodities, and thus the value of the Currency-Hedged Commodity Securities, may vary widely due to, amongst other things, changing supply and demand for a particular commodity, government and monetary policy or intervention, interest rate levels and global or regional political, economic or financial events. The market price of Currency-Hedged Commodity Securities is (and will remain) a function of supply and demand amongst investors wishing to buy and sell Currency-Hedged Commodity Securities and the bid or offer spread that the market makers are willing to quote.

Movements in the value of the underlying hedged commodity index, and thus the value of the Currency- Hedged Commodity Securities, may vary widely which could have an impact on the demand for the Currency- Hedged Commodity Securities issued by the Company. These movements are shown in notes 6 and 7 to the financial statements.

In addition, whilst the table above also reflects the NAV at 31 December 2024 and 31 December 2023, together with the movement, this does not reflect the recommended holding period for Currency-Hedged Commodity Securities, which in some cases is one day. Further information on the contractual value (at NAV) of the Currency-Hedged Commodity Securities on a daily basis can be found on the WisdomTree website

Additional information on other financial and operational risks and uncertainties faced by the Company, including further details surrounding the value of Currency-Hedged Commodity Securities and the Commodity Contracts are disclosed in note 11 of these financial statements.

Corporate Governance

There is no standard code of corporate governance in Jersey. The operations, as previously described in the Directors' Report, are such that the directors have determined that the Company is not required to apply, and has elected not to voluntarily apply, the UK Corporate Governance Code.

As the Board is small, there is no nomination committee and appointments of new directors are considered by the Board as a whole. The Board does not consider it appropriate that directors should be appointed for a specific term. Furthermore, the structure of the Board is such that it is considered unnecessary to identify a senior non-executive director.

The constitution of the Board is disclosed on page 1. The Board meets regularly as required by the operations of the Company, but at least quarterly to review the overall business of the Company and to consider matters specifically reserved for its review.

Internal Control

During the year the Company did not have any employees or subsidiaries, and there is no intention that this will change. The Company, being a special purpose company established for the purpose of issuing Currency-Hedged Commodity Securities, has not undertaken any business, save for issuing and redeeming Currency-Hedged Commodity Securities, entering into the required documents, performing the obligations and exercising its rights in relation thereto, since its incorporation. The Company does not intend to undertake any business other than issuing and redeeming Currency-Hedged Commodity Securities and performing the obligations and exercising its rights in relation thereto.

The Company is dependent upon ManJer for the provision of management and administration services to it. ManJer is licensed under the Financial Services (Jersey) Law 1998 to conduct classes U and Z of Fund Services Business. ManJer outsources the administration services in respect of the Company to the Administrator. Documented contractual arrangements are in place with the Administrator which define the areas where the authority is delegated to them. The performance of the Manager and Administrator are reviewed on an ongoing basis by the Board through their review of periodic reports.

ManJer provides management and other services to both the Company and other companies issuing exchange-traded products. The Board having reviewed the effectiveness of the internal control systems of the Manager and the Administrator, does not consider that there is a need for the Company to establish its own internal audit function.

Directors' Report (Continued)

Audit Committee

The Board has not established a separate audit committee; instead the Board meets to consider the financial reporting of the Company, the internal controls, and relations with the external auditor. In addition, the Board reviews the independence and objectivity of the auditor.

Vinod Rajput

Director

Jersey

Date: 28/04/2025

Statement of Directors' Responsibilities

The directors are responsible for preparing the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law they have elected to prepare the financial statements in accordance with International Financial Reporting Standards ("IFRSs") as issued by the International Accounting Standards Board ("IASB") and applicable law.

Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Company and of the profit or loss of the Company for that period. In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether applicable accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements;
- assess the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern; and
- use the going concern basis of accounting unless they either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that the financial statements comply with the Companies (Jersey) Law 1991. They are responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error, and have general responsibility for taking such steps as are reasonably open to them to safeguard the assets of the Company and to prevent and detect fraud and other irregularities.

The directors are responsible for the maintenance and integrity of the corporate and financial information included on the Company's website. Legislation in Jersey governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

With regard to Directive 2004/109/EC, amended by Directive 2013/50/EU (collectively the Transparency Directive), the Central Bank (Investment Market Conduct) Rules of the Central Bank of Ireland and the Disclosure Guidance and Transparency Rules of the Financial Conduct Authority, the directors confirm that to the best of their knowledge that:

- the financial statements for the year ended 31 December 2024 give a true and fair view of the assets, liabilities, financial position and profit or loss of the Company as required by law and in accordance with IFRS as issued by the IASB; and
- the Directors' Report gives a fair view of the development and performance of the Company's business, including financial position and the important events that have occurred during the year, and their impact on these financial statements, together with a description of the principal risks and uncertainties they face.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF WISDOMTREE HEDGED COMMODITY SECURITIES LIMITED

Opinion

We have audited the financial statements of WisdomTree Hedged Commodity Securities Limited (the "company") for the year ended 31 December 2024 which comprise the Statement of Profit or Loss and Other Comprehensive Income, the Statement of Financial Position, the Statement of Cash Flows, the Statement of Changes in Equity and the related notes 1 to 14, including material accounting policy information. The financial reporting framework that has been applied in their preparation is applicable law and International Financial Reporting Standards as issued by the International Accounting Standards Board ("IFRS").

In our opinion, the financial statements:

- ▶ give a true and fair view of the state of the company's affairs as at 31 December 2024 and of its loss for the year then ended;
- ▶ have been properly prepared in accordance with IFRS;
- ▶ have been properly prepared in accordance with the requirements of the Companies (Jersey) Law 1991.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report. We are independent of the company in accordance with the ethical requirements that are relevant to our audit of the financial statements, including the UK FRC's Ethical Standard as applied to listed public interest entities, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate. Our evaluation of the directors' assessment of the company's ability to continue to adopt the going concern basis of accounting included:

- ▶ We obtained an understanding of management's rationale for using the going concern basis of accounting and confirmed our understanding of management's Going Concern assessment process including the process they adopted to capture all key factors in their assessment;
- ▶ We obtained management's board approved going concern assessment covering the period of assessment from the date of signing to 30 April 2026. Management's assessment has focussed on a combination of:
 - ▶ Assessing the ongoing viability of the company through continued involvement of its Commodity Contract Counterparties and Authorised Participants;
 - ▶ Assessing the ongoing ability of WisdomTree Management Jersey Limited ("ManJer") to continue to meet its obligations as manager and pay all expenses of the company. This includes consideration of the assets under management of all managed issuer entities ("Issuer Platform") which includes this company. In assessing this ability management considered the fixed and variable operating costs that could be supported under varying levels of total assets under management for the Issuer Platform.

Shape the future
with confidence

**INDEPENDENT AUDITOR’S REPORT
TO THE MEMBERS OF WISDOMTREE HEDGED COMMODITY SECURITIES (continued)**

- ▶ Using our understanding of the business, we evaluated whether the considerations and method adopted by management in assessing going concern was appropriate.
- ▶ We performed reverse stress testing on the forecasts to understand how severe the downside scenarios would have to be, and the reduction in platform assets under management, to result in the platform generating insufficient management fees to cover operating costs. We observed significant headroom in management fee income, at current Assets Under Management (“AUM”) levels, in excess of fixed and AUM based costs which supports management’s assumption that the Issuer Platform is able to absorb heightened levels of volatility in AUM.
- ▶ We considered whether management’s disclosures, in the Annual Report and financial statements, sufficiently and appropriately discloses information required in respect of the going concern assumption applied through consideration of relevant disclosure standards.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the company’s ability to continue as a going concern for a period to 30 April 2026.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report. However, because not all future events or conditions can be predicted, this statement is not a guarantee as to the company’s ability to continue as a going concern.

Overview of our audit approach

Key audit matters	<ul style="list-style-type: none"> ▶ Valuation of Financial Assets at fair value through profit and loss – Commodity Contracts ▶ Valuation of Financial Liabilities at fair value through profit and loss – Currency-Hedged Commodity Securities
-------------------	--

Materiality	▶ Overall materiality of US\$1.9m which represents 1% of total assets.
-------------	--

An overview of the scope of our audit

Tailoring the scope

Our assessment of audit risk, our evaluation of materiality and our allocation of performance materiality determine our audit scope for the company. This enables us to form an opinion on the financial statements. We take into account size, risk profile, the organisation of the company and effectiveness of controls, changes in the business environment and the potential impact of climate change when assessing the level of work to be performed. All audit work was performed directly by the audit engagement team.

Changes from the prior year

There were no scoping changes compared to the prior year.

Climate change

There has been increasing interest from stakeholders as to how climate change will impact companies. The company has determined that there are no directly observed impacts of climate change on the business due to the nature of the company and its operations. This is explained on page 5 in the corporate social responsibility section, which form part of the “Other information,” rather than the audited financial statements. Our procedures on these disclosures therefore consisted solely of considering whether they are materially inconsistent with the financial statements or our knowledge obtained in the course of the audit or otherwise appear to be materially misstated.

Shape the future
with confidence

**INDEPENDENT AUDITOR’S REPORT
TO THE MEMBERS OF WISDOMTREE HEDGED COMMODITY SECURITIES (continued)**

Our audit effort in considering climate change was focused on evaluating management’s assessment of the impact of climate risk, physical and transition, the adequacy of the company’s disclosures in the financial statements as set out in note 2 and conclusion that there was no further impact of climate change to be taken into account as the material assets and liabilities are valued based on market pricing as required by IFRS.

Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the current period and include the most significant assessed risks of material misstatement (whether or not due to fraud) that we identified. These matters included those which had the greatest effect on the overall audit strategy, the allocation of resources in the audit; and directing the efforts of the engagement team. These matters were addressed in the context of our audit of the financial statements as a whole, and in our opinion thereon, and we do not provide a separate opinion on these matters.

**INDEPENDENT AUDITOR'S REPORT
TO THE MEMBERS OF WISDOMTREE HEDGED COMMODITY SECURITIES (continued)**

Risk	Our response to the risk	Key observations communicated to the Board
<p>The risk comprises the risk of errors in both the valuation methodology applied and, in the source, and timing of valuation inputs utilised.</p> <p>The balance of Commodity Securities represents in excess of 99% of the company's total liabilities as at 31 December 2024 (2023: 99%) and therefore any error in valuation approach could be significant.</p> <p>The risk has remained consistent with that observed in the prior year.</p>	<p>We recalculated the value of Commodity Securities held at 31 December 2024, by multiplying the security price by the confirmed security balance in issue. This represented 100% of the total value of Commodity Securities in issue.</p>	

Our application of materiality

We apply the concept of materiality in planning and performing the audit, in evaluating the effect of identified misstatements on the audit and in forming our audit opinion.

Materiality

The magnitude of an omission or misstatement that, individually or in the aggregate, could reasonably be expected to influence the economic decisions of the users of the financial statements. Materiality provides a basis for determining the nature and extent of our audit procedures.

We determined materiality for the company to be US\$1.9 million (2023: US\$2.19 million), which is 1% (2023: 1%) of Total Assets. We believe that Total Assets provides us with an appropriate basis for audit materiality as Total Assets reflects the relevant exposure of holders of issued securities to the underlying asset base.

There has been no change in the basis of materiality used compared to the prior year.

Performance materiality

The application of materiality at the individual account or balance level. It is set at an amount to reduce to an appropriately low level the probability that the aggregate of uncorrected and undetected misstatements exceeds materiality.

On the basis of our risk assessments, together with our assessment of the company's overall control environment, our judgement was that performance materiality was 50% (2023: 50%) of our planning materiality, namely US\$0.95m (2023: US\$1.10m). We have set performance materiality in both periods at this percentage in response to the value of errors identified and corrected in the financial statement close process.

Reporting threshold

An amount below which identified misstatements are considered as being clearly trivial.

We agreed with the Board that we would report to them all uncorrected audit differences in excess of US\$0.095m (2023: US\$0.11m), which is set at 5% of materiality, as well as differences below that threshold that, in our view, warranted reporting on qualitative grounds.

Shape the future
with confidence

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF WISDOMTREE HEDGED COMMODITY SECURITIES (continued)

We evaluate any uncorrected misstatements against both the quantitative measures of materiality discussed above and in light of other relevant qualitative considerations in forming our opinion.

Other information

The other information comprises the information included in the annual report set out on pages 1 to 10, other than the financial statements and our auditor's report thereon. The directors are responsible for the other information contained within the annual report.

Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in this report, we do not express any form of assurance conclusion thereon.

Our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the course of the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether this gives rise to a material misstatement in the financial statements themselves. If, based on the work we have performed, we conclude that there is a material misstatement of the other information, we are required to report that fact.

We have nothing to report in this regard.

Matters on which we are required to report by exception

We have nothing to report in respect of the following matters in relation to which the Companies (Jersey) Law 1991 requires us to report to you if, in our opinion:

- ▶ proper accounting records have not been kept by the company, or proper returns adequate for our audit have not been received from branches not visited by us; or
- ▶ the financial statements are not in agreement with the company's accounting records and returns; or
- ▶ we have not received all the information and explanations we require for our audit

Responsibilities of directors

As explained more fully in the Statement of Directors' Responsibilities set out on page 10, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

with confidence

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF WISDOMTREE HEDGED COMMODITY SECURITIES (continued)

Explanation as to what extent the audit was considered capable of detecting irregularities, including fraud

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect irregularities, including fraud. The risk of not detecting a material misstatement due to fraud is higher than the risk of not detecting one resulting from error, as fraud may involve deliberate concealment by, for example, forgery or intentional misrepresentations, or through collusion. The extent to which our procedures are capable of detecting irregularities, including fraud is detailed below.

However, the primary responsibility for the prevention and detection of fraud rests with both those charged with governance of the company and management.

- ▶ We obtained an understanding of the legal and regulatory frameworks that are applicable to the company and determined that the most significant are those that relate to the reporting framework, comprising IFRS and the Companies (Jersey) Law 1991. In addition, we concluded that there are certain significant laws and regulations that may have an effect on the presentation and disclosure of the financial statements being the applicable Listing Rules of the Central Bank of Ireland (Investment Market Conduct) and UK Listing Authority Rules;
- ▶ We understood how WisdomTree Hedged Commodity Securities Limited is complying with those frameworks by making enquiries of the directors and key management of the administrative service provider. We corroborated our enquiries through our review of minutes of Board meetings, papers provided to the board and correspondence received from regulatory bodies and noted no contradictory evidence;
- ▶ We assessed the susceptibility of the company's financial statements to material misstatement, including how fraud might occur by understanding the investment objectives of the Company and discussing with management to understand where reporting was considered susceptible to fraud. Where this risk was considered to be higher, we performed audit procedures in response to the identified fraud risk. These procedures included testing of transactions to supporting documentation, testing of specific accounting journal entries, and focused testing, including that referred to in the key audit matters section above. These procedures were designed to provide reasonable assurance that the financial statements were free from fraud or error;
- ▶ Based on this understanding we designed our audit procedures to identify non-compliance with such laws and regulations. Our procedures involved reading board minutes to identify any non-compliance with laws and regulations, a review of any associated reporting submitted to the board on compliance with laws and regulations and enquiries of members of management of the appointed administrative service provider;
- ▶ As the Company operates in the asset management industry the Audit Partner assessed the experience of the engagement team and concluded that the team had the appropriate competence and capabilities.

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at <https://www.frc.org.uk/auditorsresponsibilities>. This description forms part of our auditor's report.

Other matters we are required to address

- ▶ Following the recommendation from those charged with governance, we were appointed by the company on 3 December 2019 to audit the financial statements for the year ending 31 December 2019 and subsequent financial periods.

The period of total uninterrupted engagement including previous renewals and reappointments is 6 years, covering the years ending 31 December 2019 to 31 December 2024.

with confidence

**INDEPENDENT AUDITOR'S REPORT
TO THE MEMBERS OF WISDOMTREE HEDGED COMMODITY SECURITIES (continued)**

The non-audit services prohibited by the FRC's Ethical Standard were not provided to the company and we remain independent of the company in conducting the audit. The audit opinion is consistent with the additional report to those charged with governance.

Use of our report

This report is made solely to the company's members, as a body, in accordance with Article 113A of the Companies (Jersey) Law 1991. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

Notes to the Financial Statements For the financial year ended 31 December 2024

1. General Information

WisdomTree Hedged Commodity Securities Limited (the “Company”) is a company incorporated and domiciled in Jersey. The address of the registered office is

IFC 5
St. Helier
Jersey, JE1 1ST

The Company’s principal activity is the issue and listing of currency-hedged commodity securities (“Currency- Hedged Commodity Securities”). Currency-Hedged Commodity Securities are undated secured limited recourse financial instruments designed to track the price of individual commodity futures contracts or baskets of commodity futures contracts for which the effects of foreign exchange risks are hedged, and give investors an exposure similar to that which could be achieved by managing a long fully cash collateralised unleveraged position in futures contracts of specific maturities, less applicable fees. However, unlike managing a futures position, Currency-Hedged Commodity Securities involve no need to roll from one futures contract to another, no margin calls, and no other brokerage or other costs in holding or rolling futures contracts (although security holders incur other costs in holding Currency-Hedged Commodity Securities). No trading or management of futures contracts is required by the Company. Currency-Hedged Commodity Securities allow investors to buy and sell their interest through the trading of a security on the London Stock Exchange and any other exchange to which that security may be admitted to trading from time to time.

Currency-Hedged Commodity Securities are backed by commodity contracts (“Commodity Contracts”) with terms corresponding to the terms of Currency-Hedged Commodity Securities. Each class of Currency-Hedged Commodity Security is issued under limited recourse arrangements whereby the holders have recourse only to the relevant Commodity Contract held to support the Currency-Hedged Commodity Securities and not to the Commodity Contracts of any other class of Currency-Hedged Commodity Securities or to the Company. The Company does not make gains from trading in the underlying Commodity Contracts. As a result (and with the exception of the impact of management fees and licence allowance), from a commercial perspective gains and losses in respect of Commodity Contracts will always be offset by a corresponding loss or gain on the Currency-Hedged Commodity Securities and therefore commercially the Company does not retain any net gains or losses or net risk exposures. However, the difference in valuation between Commodity Contracts and Currency-Hedged Commodity Securities creates a mis-match between values reported within these financial statements. This difference in valuation would be reversed on a subsequent redemption of the Currency- Hedged Commodity Securities and cancellation of the corresponding Commodity Contracts. Further details are disclosed within the Accounting Policies and in note 14 to the financial statements, with additional information regarding the risks of the Company disclosed in note 11 to the financial statements. Furthermore, the Company presents an adjusted Statement of Profit or Loss and Other Comprehensive Income and an adjusted Statement of Changes in Equity in note 14 to the financial statements to reflect the economic results of the Company through the reversal of the difference in valuation between Commodity Contracts and Currency-Hedged Commodity Securities given the gain or loss would be reversed on a subsequent redemption of the Currency-Hedged Commodity Securities and cancellation of the corresponding Commodity Contracts, and therefore will not be realised.

Exchange-traded products are not typically actively managed, are significantly lower in cost when compared to actively managed mutual funds and are easily accessible to investors. . No trading or management of futures contracts is required of the Company because the Company has entered into arrangements to acquire an equivalent asset exposure represented by the Currency-Hedged Commodity Securities from third parties which fully hedges the exposure of the Company.

The Company is entitled to:

- (1) a management fee and a licence allowance which are calculated by applying a fixed percentage to the Contractual Value of Currency-Hedged Commodity Securities in issue on a daily basis (the “Management Fee and Licence Allowance”); and
- (2) apply creation and redemption fees on the issue and redemption of the Currency-Hedged Commodity Securities.

No creation or redemption fees are payable to the Company when investors trade in the Currency-Hedged Commodity Securities on a listed market such as the London Stock Exchange.

Under the terms of the service agreement with ManJer’, as a result, the Company recognises a result before fair value movements of nil for each period.

**Notes to the Financial Statements (continued)
For the financial year ended 31 December 2024**

2. Accounting Policies

The material accounting policies of the Company are described below.

Basis of Preparation

The financial statements of the Company have been prepared in accordance with International Financial Reporting Standards (“IFRSs”) as issued by the International Accounting Standards Board (“IASB”), and interpretations issued by the International Financial Reporting Interpretations Committee of the IASB. The financial statements have been prepared under the historical cost convention, except for certain financial assets and financial liabilities held at fair value through profit or loss. The financial statements are presented in the United States Dollars (USD) and all values are rounded to the nearest USD, except when otherwise indicated.

The Board has concluded specifically that climate change, including physical and transition risks, does not have a material impact on the recognition and separate measurement considerations of the assets and liabilities in these financial statements as at 31 December 2024.

This conclusion is based on the fact that assets are reported at fair value under IFRS, are short dated, and as set out in note 11 to the financial statements are categorised as level 2 of the fair value hierarchy due to the use of observable, verifiable inputs, including use of third party information sources within the agreed pricing formulae (set out in the Prospectus). The liabilities are valued utilising listed market prices at the year end. These observable inputs and market prices will reflect wider market sentiment, which inherently includes market perspectives relating to the impact of climate change.

Critical Accounting Estimates and Judgements

The presentation of financial statements in conformity with IFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Company’s accounting policies. The Company makes estimates and assumptions that affect the reported amounts of assets and liabilities. Estimates are continually evaluated and based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

Significant Judgements

The key accounting judgement required to prepare these financial statements is in respect of the presentation of non-statutory and non-GAAP adjustments to the Statement of Profit or Loss and Other Comprehensive Income and the Statement of Changes in Equity, as disclosed in note 14 to

Significant Estimates

The directors do not consider that any significant estimates have been applied in the preparation of these financial statements.

Going Concern

The directors continue to monitor and assess the impact of geopolitical conflicts on the assets under management of the Company and will take any potential actions needed or as required under the terms of the prospectus, as facts and circumstances are subject to change and may be specific to investments and jurisdictions.

The nature of the Company’s business dictates that the outstanding Currency-Hedged Commodity Securities may be redeemed at any time by Authorised Participants and in certain circumstances by individual holders or may be compulsorily redeemed by the Company. As the redemption of Currency-Hedged Commodity Securities will always coincide with the cancellation of an equal amount of Commodity Contracts, liquidity risk is mitigated such that there is no material residual risk. All other expenses of the Company are met by ManJer. The directors closely monitor the financial position and performance of ManJer, its assets under management, and therefore its related revenue streams, in respect of fulfilling the obligations under the services agreement. The net reported position on the statement of financial position, including instances where a deficit is reported, is not considered to impact the going concern position of the Company as this would result solely due to the unrealised gains or losses on Commodity Contracts and Currency-Hedged Commodity Securities in accordance with the accounting measurement basis applied as prescribed by IFRS. As Commodity Contracts are held to support Currency-Hedged Commodity Securities, any deficit or surplus reported on unrealised positions would be reversed on a subsequent redemption of the Currency-Hedged Commodity Securities and the related cancellation of Commodity Contracts. A reported deficit is not considered indicative of any issues relating to solvency of the Company and the directors are satisfied that any obligations arising in respect of the Currency-Hedged Commodity can be managed in accordance with the terms of the applicable Prospectus. The directors consider the operations of the Company to be ongoing, with a reasonable expectation that the Company has adequate resources to continue in operational existence until at least 30 April 2026, and accordingly these financial statements have been prepared on the going concern basis.

**Notes to the Financial Statements (continued)
For the financial year ended 31 December 2024**

2. Accounting Policies (continued)**Accounting Standards****(a) Standards, amendments and interpretations considered by the Company:**

The following are standards and amendments effective for accounting periods beginning on or after 1 January 2025 but which did not have any effect on the financial statements of the Company:

- Amendments to IAS 1-Classification of Liabilities as current or non-current
- Amendments to IFRS 16-lease liability in a sale and leaseback transaction

There were no other new standards, amendments and interpretations adopted in the current year that resulted in a significant effect on these financial statements.

(b) New and revised IFRSs in issue but not yet effective:

The Company has not applied the following new and revised IFRSs that have been issued :

- Supplier Finance Arrangements - IAS 7 and IFRS 7 (effective for annual periods beginning on or after 1 January 2025)
- Amendments to IFRS 16 Lease liability in Sale and Leaseback (effective for annual periods beginning on or after 1 January 2025)
- Lack of exchangeability - Amendments to IAS 21 (effective for annual periods beginning on or after 1 January 2025)
- IFRS 18- Presentation and disclosure in financial statements (effective for annual periods beginning on or after 1 January 2027)
- IFRS 19 - Subsidiaries without public accountability: disclosures (effective for annual periods beginning on or after 1 January 2027)
- IFRS 9 and IFRS 7 (amendments) - Classification and measurement of financial instruments (effective for annual periods beginning on or after 1 January 2026)

The directors do not expect the adoption of the above standards, amendments and interpretations that are in issue will have a material impact on the financial statements of the Company in future periods.

Currency-Hedged Commodity Securities and Commodity Contracts**i) Issue and Redemption**

Each time a Currency-Hedged Commodity Security is issued or redeemed by the Company a corresponding number and value of Commodity Contracts are created or cancelled with Citigroup Global Markets Limited (“Citigroup”) and Merrill Lynch International (“Merrill Lynch”) (collectively the “Commodity Contract Counterparties”). The Commodity Contracts represent the financial assets of the Company and the Currency-Hedged Commodity Securities give rise to the financial liabilities. Upon initial recognition, the fair value is recorded using the price calculated based on the formula set out in the Prospectus, referred to as the “Contractual Value” (see below).

Financial assets and liabilities are recognised and de-recognised on the transaction (trade) date.

ii) Classification at fair value through Profit or Loss

Each Currency-Hedged Commodity Security and Commodity Contract comprises a financial instrument whose redemption or cancellation price is linked to the performance of the relevant commodity index adjusted by the applicable fees and expenses.

The Commodity Contracts held are classified as financial assets at fair value through profit or loss under IFRS 9 and the Currency-Hedged Commodity Securities are classified as financial liabilities measured at fair value through profit or loss under IFRS 9 due to an embedded derivative. This also significantly reduces a measurement or recognition inconsistency that would otherwise arise from measuring assets or liabilities or recognising the gains and losses on them on different bases.

**Notes to the Financial Statements (continued)
For the financial year ended 31 December 2024**

2. Accounting Policies (continued)***Currency-Hedged Commodity Securities and Commodity Contracts (continued)******iii) Pricing***

The Commodity Contracts are priced by reference to certain currency-hedged commodity indices calculated and published by Bloomberg L.P. or Bloomberg Finance L.P. (together "Bloomberg") and a multiplier calculated by the Company and agreed with the Commodity Contract Counterparties. The multiplier takes into account the daily accrual of the Management Fee and Licence Allowance and swap spread as well as the incremental capital enhancement component of the Currency-Hedged Commodity Security, and is the same across all Currency-Hedged Commodity Securities of the same type (i.e. all classic Currency-Hedged Commodity Securities use the same multiplier). This price (the Contractual Value) is calculated based on the formula set out in the Prospectus and is considered to be the fair value of the Commodity Contracts.

IFRS 13 requires the Company to identify the principal market and to utilise the available price within that principal market. The directors consider the stock exchanges where the Currency-Hedged Commodity Securities are listed to be the principal market and as a result the fair value of the Currency-Hedged Commodity Securities is the on-exchange price as quoted on the stock exchange demonstrating active trading with the highest trading volume on each day that the price is obtained. The Currency-Hedged Commodity Securities are priced using the latest traded mid-market price on (or before) the reporting date.

Consequently, a difference arises between the value of Commodity Contracts (held to support the Currency-Hedged Commodity Securities) and Currency-Hedged Commodity Securities (at market value) presented in the Statement of Financial Position. This difference is reversed on a subsequent redemption of the Currency-Hedged Commodity Securities and cancellation of the corresponding Commodity Contracts.

Commodity Contracts and Securities Awaiting Settlement

The issue and redemption of Currency-Hedged Commodity Securities, and the creation or cancellation of Commodity Contracts, is accounted for on the transaction date. The transaction will not settle until two days after the transaction date. Where transactions are awaiting settlement at the year end, the value of the Commodity Contracts and the Currency-Hedged Commodity Securities due to be settled is separately disclosed within the relevant assets and liabilities on the Statement of Financial Position. The fair value of these receivables and payables is considered equivalent to their carrying value.

Other Financial Assets and Liabilities

Other financial assets and liabilities are non-derivative financial assets and liabilities including trade and other receivables and trade and other payables with a fixed payment amount and are not quoted in an active market. After initial measurement the other financial assets and liabilities are subsequently measured at amortised cost using the effective interest method less any allowance for expected credit losses (in respect of financial assets only). The effective interest method is a method of calculating the amortised cost of an instrument and of allocating interest over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash flows (including all fees paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the instrument, or, where appropriate, a shorter period, to the net carrying amount on initial recognition. Impairment losses, including reversals of impairment losses and impairment gains, are recorded through profit or loss.

Reserves

A revaluation reserve and a retained earnings reserve are maintained within equity. All profit or loss is taken to the retained earnings reserve at the end of the accounting period to which it relates and the gain or loss relating to the mis-match of accounting values is transferred to the revaluation reserve, which the directors have deemed to be non-distributable, as the balance relates to unrealised gains and losses on Commodity Contracts (held to support the Currency-Hedged Commodity Securities) and Currency-Hedged Commodity Securities, which will be reversed on a subsequent redemption of the Currency-Hedged Commodity Securities and the related cancellation of Commodity Contracts and will therefore not be realised.

Income

The Company derives its income over time (in respect of management fees), and at a point in time (in respect of creation and redemption fees) as follows:

Notes to the Financial Statements (continued) For the financial year ended 31 December 2024

2. Accounting Policies (continued)

Income (continued)

i) *Management Fees and Licence Allowance*

Management Fees and Licence Allowance are calculated by applying a fixed percentage to the Contractual Value of Currency-Hedged Commodity Securities in issue on a daily basis in accordance with the terms of the securities issued:

- Classic and longer dated GBP-Hedged Commodity Securities have a management fee rate of 0.49% per annum;
- classic and longer Dated EUR-Hedged Commodity Securities have a management fee rate of 0.69% per annum; and
- all Commodity Securities are subject to the licence allowance of 0.05% per annum.

The Management Fees and Licence Allowance are accrued and recognised on a daily basis and are invoiced on a monthly basis and settled directly between ManJer and the Commodity Contract Counterparties.

ii) *Creation and Redemption Fees*

Fees for the issue and redemption of Commodity Securities are recognised at the fair value of the consideration expected to be received, on the date on which the transaction becomes legally binding. Creation and redemption fees are included as part of each creation or redemption and settled between the Authorised Participants and the Commodity Contract Counterparties, and transferred directly to ManJer by the Commodity Contract Counterparties on a monthly basis.

Foreign Currency

The financial statements of the Company are presented in the currency in which the majority of Currency- Hedged Commodity Securities issued by the Company are denominated (its functional currency). For the purpose of the financial statements, the results and financial position of the Company are expressed in United States Dollars (USD), which is the functional currency of the Company, and the presentation currency of the financial statements.

Transactions in foreign currencies are initially recorded at the spot rate at the date the transaction. Monetary assets and liabilities denominated in foreign currencies at the year end date are translated at rates ruling at that date.

Segmental Reporting

A segment is a distinguishable component of the Company that is engaged either in providing products or services (business segment), or in providing products and services within a particular economic environment (geographical segment), which is subject to risks and rewards that are different from those of other segments. IFRS 8 requires operating segments to be identified on the basis of internal reports about components of the Company that are regularly reviewed by the Chief Operating Decision Maker (“CODM”) in order to allocate resources to the segments and to assess their performance. The CODM has been determined as the board of directors.

Whilst the Company has a number of different Currency-Hedged Commodity Securities in issue, the financial information reviewed by CODM is not segregated by those different Currency-Hedged Commodity Securities and therefore the board of directors concluded that these components do not meet the criteria of operating segments. Furthermore marketing of the Currency-Hedged Commodity Securities is undertaken on a centralised basis and the terms of the Currency-Hedged Commodity Securities of any class rank pari passu in all respects irrespective of stock exchange listing.

As a result, the CODM determined that the Company is operating a single segment or product group, classic and longer dated Currency-Hedged Commodity Securities, and one geographical segment which is Europe. Therefore the Company discloses its results on an equivalent aggregated form and does not provide any further segmental information. In addition, the Company has no single major customer from which greater than 10% of income is generated. All information relevant to the understanding of the Company’s activities is included in these financial statements.

Notes to the Financial Statements (continued)
For the financial year ended 31 December 2024

3. Result Before Fair Value Movements

Result Before Fair Value Movements for the year comprised:

	Year ended 31 December 2024 USD	Year ended 31 December 2023 USD
Creation and Redemption Fees	165,215	227,903
Management Fees	1,144,915	1,172,956
License Allowance	116,828	119,689
Total Income	1,426,958	1,520,548
ManJer Fees	(1,426,958)	(1,520,548)
Total Operating Expenses	(1,426,958)	(1,520,548)
Result Before Fair Value Movements	-	-

Audit Fees for the year of GBP 33,083 will be met by ManJer (2023: GBP 25,079).

4. Taxation

The Company is subject to Jersey Income Tax. During the year the Jersey Income Tax rate applicable to the Company is zero percent (2023: zero percent).

5. Trade and Other Receivables

	31 December 2024 USD	31 December 2023 USD
Management Fee and Licence Allowance	93,930	121,843
Creation and Redemption Fees	21,495	17,905
Receivable from Related Party	3	3
	115,428	139,751

The fair value of these receivables is equal to the carrying value. The Trade and Other Receivables are due to be recovered within 12 months after the year end.

6. Commodity Contracts

	31 December 2024 USD	31 December 2023 USD
Change in Contractual and Fair Value of Currency-Hedged Commodity Contracts	(1,465,565)	(7,104,962)
Commodity Contracts at Fair Value	190,163,656	215,850,633

Notes to the Financial Statements (continued)
For the financial year ended 31 December 2024

6. Commodity Contracts (continued)

As at 31 December 2024, there were certain Commodity Contracts awaiting settlement in respect of the creation or redemption of Currency-Hedged Commodity Securities with transaction dates before the year end and settlement dates in the following year:

- The amount receivable on Commodity Contracts awaiting settlement is USD 482,374 (2023: UDS 3,050,444).
- The amount payable on Commodity Contracts awaiting settlement is USD 8,300 (2023: USD 340,435).

The below reconciliation of changes in the Commodity Contracts includes only non-cash changes.

	31 December 2024 USD	31 December 2023 USD
Opening Commodity Contracts	215,850,633	202,849,561
Additions	178,839,361	276,008,809
Disposals	(201,799,030)	(254,610,130)
Management Fee and Licence Allowance	(1,261,743)	(1,292,645)
Change in Fair Value	(1,465,565)	(7,104,962)
Closing Commodity Contracts	190,163,656	215,850,633

7. Currency-Hedged Commodity Securities

Whilst the Currency-Hedged Commodity Securities are quoted on the open market, the Company's ultimate liability relates to its contractual obligations to issue and redeem Currency-Hedged Commodity Securities at set prices on each trading day. These prices are based on an agreed formula, and are equal to the published net asset value ("NAV") of each class of Currency-Hedged Commodity Security. Therefore, the actual contractual issue and redemption of Currency-Hedged Commodity Securities occur at a price that corresponds to the fair value of the Commodity Contracts. As a result, the Company has no net exposure to gains or losses on the Currency-Hedged Commodity Securities and Commodity Contracts.

The Company measures the Currency-Hedged Commodity Securities at their fair value in accordance with IFRS 13 rather than at the Contractual Value (as described in the Prospectus). The fair value is the price quoted on stock exchanges or other markets where the Currency-Hedged Commodity Securities are listed or traded. The fair values and changes thereof during the year based on prices available on the open market as recognised in the financial statements are:

	31 December 2024 USD	31 December 2023 USD
Change in Fair Value of Currency-Hedged Commodity Securities	249,795	5,703,138
Currency-Hedged Commodity Securities at Fair Value	192,137,223	216,608,430

The Contractual Values and changes thereof during the year based on the contractual settlement values are:

	31 December 2024 USD	31 December 2023 USD
Change in Contractual Value for the Year	1,465,565	7,104,962
Currency-Hedged Commodity Securities at Contractual Value	190,163,656	215,850,633

Notes to the Financial Statements (continued)
For the financial year ended 31 December 2024

7. Currency-Hedged Commodity Securities (continued)

The gain or loss on the difference between the value of the Commodity Contracts and the fair value of Currency-Hedged Commodity Securities would be reversed on a subsequent redemption of the Currency- Hedged Commodity Securities and cancellation of the corresponding Commodity Contracts. Refer to note 14 to the financial statements for the non-statutory and non-GAAP adjustments which reflect the results of this reversal.

As at 31 December 2024, there were certain Currency-Hedged Commodity Securities awaiting settlement in respect of creations or redemptions with transaction dates before the year end and settlement dates in the following year:

- The amount receivable on Currency-Hedged Commodity Securities awaiting settlement is USD 8,300 (2023: USD 340,435).
- The amount payable on Currency-Hedged Commodity Securities awaiting settlement is USD 482,374 (2023 USD 3,050,444).

The below reconciliation of changes in the Commodity Securities, being liabilities arising from financing activities, includes only non-cash changes.

	31 December 2024 USD	31 December 2023 USD
Balance at 1 January	216,608,430	202,205,534
Securities Created	178,839,361	276,008,809
Securities Redeemed	(201,799,030)	(254,610,130)
Management Fee and Licence Allowance	(1,261,743)	(1,292,645)
Change in Fair Value	(249,795)	(5,703,138)
Balance at 31 December	192,137,223	216,608,430

8. Trade and Other Payables

	31 December 2024 USD	31 December 2023 USD
ManJer Fees Payable	115,425	139,748

The fair value of these payables is equal to the carrying value. The ManJer Fee Payable is due to be settled within 12 months of the year end.

9. Stated Capital

	31 December 2024 USD	31 December 2023 USD
2 Shares of Nil Par Value, Issued at GBP 1 Each and Fully Paid	3	3

The Company can issue an unlimited capital of Nil par value shares in accordance with its Memorandum of Association.

All shares issued by the Company carry one vote per Share without restriction and carry the right to dividends. All shares are held by WisdomTree Holdings Jersey Limited (“HoldCo”).

Notes to the Financial Statements (continued)
For the financial year ended 31 December 2024

10. Related Party Disclosures

Entities and individuals which have significant influence over the Company, either through ownership or by virtue of being a director of the Company are considered to be related parties. In addition, entities with common ownership to the Company and entities with common directors are also considered to be related parties.

Fees charged by ManJer during the year:

	Year ended 31 December 2024 USD	Year ended 31 December 2023 USD
ManJer Fees	1,426,958	1,520,548

The following balances were due to ManJer at year end:

	31 December 2024 USD	31 December 2023 USD
ManJer Fees Payable	115,425	139,748

At 31 December 2024, USD 3 is receivable from ManJer (2023: USD 3).

No director has a service contract with the Company. The directors of the Company who are employees within the WisdomTree, Inc. group do not receive separate remuneration in their capacity as directors of the Company. The directors of the Company who are employees of Apex Financial Services (Alternative Funds) Limited (“Apex” or the “Administrator”) do not receive separate remuneration in their capacity as directors of the Company, however Apex receives a fee from ManJer which includes services in respect of the Company, including for the provision of directors who are employees of Apex.

Steven Ross is a director of R&H Fund Services (Jersey) Limited (“R&H” or, the “Administrator”) and a partner of Rawlinson & Hunter, Jersey Partnership, which wholly owns R&H. Christopher Foulds is a director of R&H. During the period, R&H charged ManJer administration fees, which include the Company and other entities for which ManJer is the Manager and R&H is the Administrator, in aggregate, of GBP 1,209,042 (31 December 2023: GBP 1,221,529) translated in USD 1,515,534 (31 December 2023: USD 1,560,381), of which GBP 73,384 (31 December 2023: GBP 333,639) translated in USD 91,987 (31 December 2023: USD 426,190) was outstanding at the period end.

Subsequent to year end on 21st January 2025 R&H Fund Services (Jersey) Limited (“R&H”) resigned as Administrator, and Apex Financial Services (Alternative Funds) Limited were appointed as Administrator. Vinod Rajput, and Olivia Vuillemin are employees of Apex.

Peter Ziemba is an executive officer of WisdomTree, Inc. and Bryan Governey is European General Counsel for the WisdomTree, Inc group.

11. Financial Risk Management

The Company is exposed to a number of risks arising from its activities, including credit risk, settlement risk, liquidity risk and market risk. The Board is responsible for the overall risk management approach and for approving the risk management strategies and principles. The Board meets frequently to consider the risk exposures of the Company and to determine appropriate management policies. The risk management policies employed by the Company to manage these are discussed below.

The Currency-Hedged Commodity Securities are subject to normal market fluctuations and other risks inherent to investing in securities and other financial instruments. There can be no assurance that any appreciation in the value of securities will occur, and the capital value of an investor’s original investment is not guaranteed. The value of investments may go down as well as up, and an investor may not get back the original amount invested.

The information provided below is not intended to be a comprehensive summary of all the risks associated with the Currency-Hedged Commodity Securities and investors should refer to the most recent Prospectus for a detailed summary of the risks inherent in investing in the Currency-Hedged Commodity Securities. Any data provided should not be used or interpreted as a basis for future forecast or investment performance.

**Notes to the Financial Statements (continued)
For the financial year ended 31 December 2024**

11. Financial Risk Management (continued)**(a) Credit Risk**

Credit risk primarily refers to the risk that Authorised Participants or the Commodity Contract Counterparties will default on their contractual obligations resulting in financial loss. Each class of Currency-Hedged Commodity Security is issued under limited recourse arrangements whereby the holders have recourse only to the relevant Commodity Contracts (held to support the Currency-Hedged Commodity Securities) and not to the Commodity Contracts of any other class of Currency-Hedged Commodity Securities or to the Company, therefore limiting the credit risk of the Company in connection with the issue of the Currency-Hedged Commodity Securities.

There are compulsory redemption provisions as outlined in the prospectus that can be triggered by the Company or the Commodity Contract Counterparties in certain circumstances whereby a compulsory redemption of all Currency-Hedged Commodity Securities in issue would be undertaken.

The total carrying amounts of commodity contracts, the amounts receivable awaiting settlement and trade and other receivables best represent the maximum credit risk exposure at the Statement of Financial Position date. At the reporting date the Company's commodity contracts, amounts receivable awaiting settlement and trade and other receivables are detailed on the Statement of Financial Position.

The value of Currency-Hedged Commodity Securities and the ability of the Company to repay the redemption price is dependent on the receipt of such amount from the Commodity Contract Counterparties and may be affected by the credit rating attached to each Commodity Contract Counterparty. Currently the Company has two Commodity Contract Counterparties, Citigroup and Merrill Lynch. At the reporting date the exposure to the Commodity Contract Counterparties was split approximately 34% and 66% (2023: 27% and 73%), respectively.

In the event that a Commodity Contract Counterparty was to default, the Company would only transact with the non-defaulting Commodity Contract Counterparty. Furthermore, the Company could use the proceeds resulting from the sale of the collateral (see below) to transact with the non-defaulting Commodity Contract Counterparty to replacing the affected Commodity Contracts where possible.

To cover the credit risk under the Commodity Contracts, the Commodity Contract Counterparties are obliged to place an amount of collateral, equal to or greater than the exposure, into a pledged account with a third party custodian, being the Bank of New York Mellon (the "Collateral Custodian"). The level of collateral deposited into the pledged account is assessed against the total outstanding value of the Commodity Contracts outstanding at the end of the previous trading day, which on the 31 December 2024 totalled USD 193,735,960 (2023: USD 221,518,593), with collateral pledged with a total value of USD 201,333,695 (2023: 230,749,525).

The realised value of the collateral may differ from the amount owed by the Currency Transaction Counterparty, as prices fluctuate intraday (i.e. from the last point the exposure and collateral were valued). The collateral posted by the Commodity Contract Counterparties can include cash invested in Eligible Money Market Funds with a minimum rating of AAA, publicly traded debt securities with a minimum rating of A- or in eligible equities (that in summary also meet these minimum requirements). These collateral schemes also apply strict margins and concentration limits (both by Issuer and Jurisdiction) to reduce the risk of such a loss, but do not completely remove it. Full details of "Eligible Collateral" can be found in the Company's prospectus.

The collateral pledged with the Collateral Custodian is re-assessed on a daily basis to ensure that the value of the collateral in the pledged account is sufficient relative to value of the Commodity Contracts outstanding and to ensure that the eligibility criteria for the collateral continues to be met on a daily basis. Should the quality of the underlying collateral change on any day, it is removed from the collateral account and replaced with collateral

The Board monitors credit risk exposure, including through an assessment of the credit rating of the Commodity Contract Counterparties Citigroup Global Markets Limited: A+ (Fitch, 28 August 2024) ((2023: A+) (Fitch, 15 September 2023) and Merrill Lynch International: AA (Fitch, 12 June 2024) ((2023: AA) (Fitch, 15 September 2023)), in order to ensure the Company's exposure is managed, and has continued to do so more closely with a focus on any potential impact of, or developments relating to the Ukraine Crisis.

**Notes to the Financial Statements (continued)
For the financial year ended 31 December 2024**

11. Financial Risk Management (continued)**(b) Settlement Risk**

Settlement risk primarily refers to the risk that an Authorised Participant or the Commodity Contract Counterparty will default on its contractual obligations resulting in financial loss.

The directors believe that settlement risk would only be caused by the risk of the Company's trading counterparty not delivering cash, Commodity Contracts or Currency-Hedged Commodity Securities on the settlement date. The directors feel that this risk is mitigated as a result of the cash or Currency-Hedged Commodity Securities settling through the CREST system. The system ensures that the transaction does not settle until both parties have fulfilled their contractual obligations. Amounts outstanding in respect of positions yet to settle are disclosed in notes 6 and 7 to the financial statements.

(c) Liquidity Risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities as they fall due. The Company's payables are all payable on demand and generally settled on a short-term basis. In addition, amounts in respect of the Management Fee, Licence Allowance and creation and redemption fees are transferred from the relevant counterparties directly to ManJer and there are no cash flows through the Company.

The Currency-Hedged Commodity Securities do not have a contractual maturity date and will only be redeemed at the request of the holder of the security, which may be requested at any time, or in the case of a compulsory redemption. Generally, only Authorised Participants can submit applications and redemptions directly with the Company.

Furthermore, liquidity risk for the Company is reduced because the timing of redemptions of the Currency- Hedged Commodity Securities and Commodity Contracts are matched, therefore the Company does not have to wait for a longer-term contract to mature in order to pay its debts to ex-security holders. Furthermore, while the agreements with the Commodity Contract Counterparties include limits (both daily and in the aggregate) on the issue and cancellation of Commodity Contracts, the Company is not obliged to issue and redeem Currency-Hedged Commodity Securities in excess of those limits under the terms of the security agreement. Consequently, the Company has not presented any tabular information in respect of

(d) Sensitivity Analysis

IFRS 7 requires disclosure of a sensitivity analysis for each type of market risk to which the Company is exposed to at the reporting date, showing how profit or loss and equity would have been affected by a reasonably possible change to the relevant risk variable.

The Company's rights and liability in respect of Commodity Contracts and Currency-Hedged Commodity Securities, respectively, relates to its contractual obligations to issue and redeem Currency-Hedged Commodity Securities at set prices on each trading day. The fair value of each creation and redemption of Currency-Hedged Commodity Securities is recorded using the price by reference to the value of the commodity indices calculated and published by Bloomberg. However, under IFRS 13, the liability is recorded at fair value (being the on-exchange price) which results in a mismatch. As described in note 14 to the financial statements this mismatch is reversed on the redemption of Currency Securities. As a result, the Company's contractual and economic liability in connection with the issue and redemption of Currency-Hedged Commodity Securities is matched by movements in corresponding Commodity Contracts.

Whilst sensitivity analysis could be performed on this mismatch, the Company does not have any net exposure to market price risk. Furthermore, the result of the numeric sensitivity is considered not material by the directors and in their opinion, no sensitivity analysis is required to be disclosed.

(e) Capital Management

The primary objective of the Company's capital management policy is to ensure that it maintains sufficient resources for operational purposes. The capital being managed is the Stated Capital as presented in the Statement of Changes in Equity. Retained Earnings and the Revaluation Reserve, as presented in the Statement of Changes in Equity, are not considered managed capital as these balances relate to unrealised gains and losses on Commodity Contracts (held to support the Currency-Hedged Commodity Securities) and Currency-Hedged Commodity Securities, which are reversed on a subsequent redemption of the Currency- Hedged Commodity Securities and the related cancellation of Commodity Contracts and will therefore not be realised. The Company is not subject to any capital requirements imposed by a regulator and there were no changes in the Company's approach to capital management during the year.

Notes to the Financial Statements (continued) For the financial year ended 31 December 2024

11. Financial Risk Management (continued)

(e) Capital Management (continued)

The Company's principal activity is the issue and listing of Currency-Hedged Commodity Securities. These Currency-Hedged Commodity Securities are issued and redeemed as demand requires. The Company holds a corresponding number of Commodity Contracts which matches the total liability of the Currency-Hedged Commodity Securities issued. ManJer supplies or arranges for the supply of all management and administration services to the Company and pays all management and administration costs of the Company. In return for these services the Company pays ManJer a fee, which under the terms of the service agreement is equal to the aggregate of the Management Fee, Licence Allowance.

As all Currency-Hedged Commodity Securities in issue are supported by an equivalent number of Commodity Contracts held with the Commodity Contract Counterparties and the running costs of the Company are paid by ManJer, the directors of the Company consider the capital management and its current capital resources are adequate to maintain the ongoing listing and issue of Currency-Hedged Commodity Securities.

(f) Market Risk

Market risk is the risk that changes in market prices (such as index and equity prices, interest rates and foreign exchange rates) will affect the Company's income or the value of its financial instruments held or issued.

i) Price Risk

As described above, Currency-Hedged Commodity Securities provide investors with long exposure to the performance of the relevant commodity

The value of the Company's liability in respect of the Currency-Hedged Commodity Securities fluctuates according to the performance of the underlying commodity indices and the risk of such change in price is managed by the Company by entering into Commodity Contracts with the Commodity Contract Counterparties which match the liability. Whilst the Currency-Hedged Commodity Securities are quoted on the open market, the Company's ultimate liability relates to its contractual obligations to issue and redeem Currency-Hedged Commodity Securities at set prices on each trading day. The Company measures the Currency-Hedged Commodity Securities at their fair value in accordance with IFRS 13 rather than at the Contractual Value (as described in the Prospectus). The gain or loss on the difference between the value of the Commodity Contracts and the fair value of Currency-Hedged Commodity Securities would be reversed on a subsequent redemption of the Currency-Hedged Commodity Securities and cancellation of the corresponding Commodity Contracts. Refer to note 7 to the financial statements for the further details regarding fair values.

The Company therefore bears no residual financial risk on a contractual basis from a change in the value of a commodity, commodity index or currency by reference to the futures price. Furthermore, the impact of price sensitivity is considered immaterial to these financial statements.

However, there is an inherent risk from the point of view of investors as the value of commodities, and thus the value of the Currency-Hedged Commodity Securities, may vary widely due to, amongst other things, changing supply or demand for a particular commodity, government and monetary policy or intervention, interest rate levels and global or regional political, economic or financial events.

The market price of Currency-Hedged Commodity Securities is (and will remain) a function of supply and demand amongst investors wishing to buy and sell Currency-Hedged Commodity Securities and the bid- offer spread that the market makers are willing to quote. This is highlighted further in note 11 (g) to the financial statement, and below under the Fair Value Hierarchy.

ii) Interest Rate Risk

The multiplier used in the pricing of the Commodity Contracts or the Currency-Hedged Commodity Securities takes into account the incremental capital enhancement component of the Currency-Hedged Commodity Security, which includes the impact of interest rates. This incremental capital enhancement component of the Commodity Contracts and Currency-Hedged Commodity Securities is attributable to the security holder. As a result, the Company does not have significant exposure to interest rate risk.

iii) Currency Risk

The Company has exposure to currency risk as the Currency-Hedged Commodity Securities are priced in US Dollars and hedged against exchange rate movements between the US Dollar, Euro and Pound Sterling. However, the directors do not consider the Company to have a significant exposure to currency risk arising from the current economic uncertainties facing a number of countries around the world as the gains or losses on the liability represented by the Currency-Hedged Commodity Securities are matched economically by corresponding losses or gains attributable to the Commodity Contracts.

Notes to the Financial Statements (continued)
For the financial year ended 31 December 2024

11. Financial Risk Management (continued)

(g) Fair Value Hierarchy

The Levels in the hierarchy are defined as follows:

- Level 1 fair value based on quoted prices in active markets for identical assets.
- Level 2 fair values based on valuation techniques using observable inputs other than quoted prices.
- Level 3 fair values based on valuation techniques using inputs that are not based on observable market data.

Categorisation within the hierarchy is determined on the basis of the lowest level input that is significant to the fair value measurement of each relevant asset/liability.

The Company is required to utilise the available on-market price as the Currency-Hedged Commodity Securities are quoted and traded on the open market. Where the market on which the Currency-Hedged Commodity Securities prices are quoted is determined to be active at the relevant reporting date, the Currency-Hedged Commodity Securities are classified as Level 1 financial liabilities. Where the market on which the Currency-Hedged Commodity Securities prices are quoted is determined to be inactive at the relevant reporting date, the Currency-Hedged Commodity Securities are

The Company values the Level 2 Currency-Hedged Commodity Securities using the unadjusted market price available at each reporting date. This is considered to most appropriately reflect the price at which transactions would occur as at the reporting date.

The Company's rights in respect of Commodity Contracts relate to its contractual obligations to issue and redeem Currency-Hedged Commodity Securities at set prices on each trading day. These prices are based on an agreed formula (set out in the Prospectus), and are equal to the published NAVs of each class of Currency-Hedged Commodity Security. Therefore, Commodity Contracts are classified as level 2 financial assets, as the value is calculated using third party pricing sources supported by observable, verifiable inputs.

The categorisation of the Company's assets and (liabilities) are as shown below:

	Fair Value as at 31 December	
	2024	2023
	USD	USD
Level 1		
Currency-Hedged Commodity Securities	178,556,324	214,951,459
Level 2		
Currency-Hedged Commodity Securities	(13,580,899)	(1,656,971)
Commodity Contracts	190,163,656	215,850,633
	176,582,757	214,193,662

The Currency-Hedged Commodity Securities and the Commodity Contracts are recognised at fair value upon initial recognition and revalued to fair value in line with the Company's accounting policy.

Transfers between levels would be recognised if there was a change in circumstances that prevented public information in respect of Level 1 inputs from being available. Any such transfers would be recognised on the date of the change in circumstances that cause the transfer. Transfers between levels may also be recognised if the primary market on which the Currency-Hedged Commodity Securities prices are quoted was determined to be inactive at the relevant reporting date. The Company considers both the last trade date and trading volumes during the 5 trading days leading up to each reporting date to determine if the market for a particular Currency-Hedged Commodity Security is active. Transfers as a result of the analysis of the activity levels of the market are identified and recognised at each reporting date.

There were no transfers or reclassifications between Level 1 and Level 2 for any of the assets during the year or at the reporting date. As at 31 December 2024, Currency-Hedged Commodity Securities with a fair value of USD 13,047,100 (2023: USD 1,175,811) were transferred from Level 1 to Level 2, and Currency-Hedged Commodities with a fair value of USD 1,020,686 (2023: Nil) were transferred from Level 2 to Level 1.

Notes to the Financial Statements (continued)
For the financial year ended 31 December 2024

12. Ultimate Controlling Party

In accordance with the disclosure requirements of IFRS the directors have determined that no entity meets the definition of immediate parent or ultimate controlling party. The holder of issued equity shares is HoldCo, a Jersey registered company. WisdomTree, Inc (formerly WisdomTree Investments, Inc) is the ultimate controlling party of HoldCo.

13. Events Occurring After the Reporting Period

There have been no significant events that have occurred since the end of the reporting period up to the date of signing the Financial Statements which would impact on the financial position of the Company disclosed in the Statement of Financial Position as at 31 December 2024 or on the results and cash flows of the Company for the year then ended.

14. Non-GAAP and Non-Statutory Information

As a result of the mis-match in the accounting valuation of Commodity Contracts (held to support the Currency- Hedged Commodity Securities) and Currency-Hedged Commodity Securities (as disclosed in notes 6 and 7 to the financial statements) the profits and losses and other comprehensive income of the Company presented in the Statement of Profit or Loss and Other Comprehensive Income reflect gains and losses which represent the movement in the cumulative difference between the value of the Commodity Contracts and the price of Currency-Hedged Commodity Securities. The Statement of Changes in Equity also reflects the fair value movements on both the Commodity Contracts (held to support the Currency-Hedged Commodity Securities) and the Currency-Hedged Commodity Securities.

These gains or losses on the difference between the value of the Commodity Contracts (held to support the Currency-Hedged Commodity Securities) and the price of Currency-Hedged Commodity Securities would be reversed on a subsequent redemption of the Currency-Hedged Commodity Securities and cancellation of the corresponding Commodity Contracts. Furthermore, each class of Currency-Hedged Commodity Security is issued under limited recourse arrangements whereby the holders have recourse only to the relevant Commodity Contracts (held to support the Currency-Hedged Commodity Securities) and not to the Commodity Contracts of any other class of Currency-Hedged Commodity Security or to the Company. As a result, the Company does not make gains from trading in the underlying Commodity Contracts (held to support the Currency-Hedged Commodity Securities) and, from a commercial perspective (with the exception of the impact of Management Fees and Licence Allowance) gains and losses in respect of Commodity Contracts (held to support the Currency-Hedged Commodity Securities) will always be offset by a corresponding loss or gain on the Currency-Hedged Commodity Securities and the Company does not retain any net gains or losses.

The mismatched accounting values are as shown below:

	Year ended 31 December 2024 USD	Year ended 31 December 2023 USD
Change Fair Value of Commodity Contracts	(1,465,565)	(7,104,962)
Change in Fair Value of Currency-Hedged Commodity Securities	249,795	5,703,138
	(1,215,770)	(1,401,824)

To reflect the commercial results, the Company has presented below a non-GAAP and non-Statutory Statement of Profit or Loss and Other Comprehensive Income and Statement of Changes in Equity for the year which reflect an Adjustment from market value to contractual value (as set out in the Prospectus) of Currency-Hedged Commodity Securities, together with those gains or losses being transferred to a separate reserve which is deemed non-distributable.

Notes to the Financial Statements (continued)
For the financial year ended 31 December 2024

14. Non-GAAP and Non-Statutory Information (continued)

(a) Non-GAAP and Non-Statutory Statement of Profit or Loss and Other Comprehensive Income

	Year ended 31 December 2024 USD	Year ended 31 December 2023 USD
Income	1,426,958	1,520,548
Expenses	(1,426,958)	(1,520,548)
Result Before Fair Value Movements	-	-
Change in Fair Value of Commodity Contracts	(1,465,565)	(7,104,962)
Change in Fair Value of Currency-Hedged Commodity Securities	249,795	5,703,138
Loss for the Year	(1,215,770)	(1,401,824)
Adjustment from Market Value to Contractual Value (as set out in the Prospectus) of Currency-Hedged Commodity Securities	1,215,770	1,401,824
Adjusted Result	-	-

(b) Non-GAAP and Non-Statutory Statement of Changes in Equity

	Share Capital USD	Retained Earnings USD	Revaluation Reserve ⁴ USD	Total Equity USD	Adjusted Total Equity USD
Balance at 1 January 2023	3	-	644,027	644,030	3
