WisdomTree Physical Gold - GBP Daily Hedged

Investment Objective

WisdomTree Physical Gold - GBP Daily Hedged is a UCITS Eligible Exchange Traded Commodity (ETC) designed to offer security holders a simple, cost-efficient and secure way to access Physical Gold currency hedged by tracking the MS Long Gold British Pound Hedged Index. The product enables investors to gain exposure to the movement of Physical Gold spot price, less the applicable management fee, with a daily currency hedge against exchange rate movements. WisdomTree Physical Gold - GBP Daily Hedged is backed by physical, allocated Physical Gold held by JPMorgan Chase Bank, N. A. (the custodian). Only metal that conforms with the London Bullion Market Association's (LBMA) rules for Good Delivery can be accepted by the custodian. Each physical bar is segregated, individually identified and allocated. For example, if the MS Long Gold British Pound Hedged Index rises by 1% over a day, then the ETC will rise by 1%, excluding fees. However if the MS Long Gold British Pound Hedged Index falls by 1% over a day, then the ETC will fall by 1%, excluding fees.

Index Information

Each individual WisdomTree Physical Gold - GBP Daily Hedged security has an effective entitlement to gold. That entitlement is (i) adjusted by the currency hedge (upwards or downwards depending on currency movements) and (ii) reduced by the management fee and hedging costs. As a result, there is no cash component and the security maintains a direct relation to the value of Physical Gold in the relevant currency. The currency hedge is provided through arrangements with a FX counterparty (Morgan Stanley &Co International plc). Authorised participants create and redeem WisdomTree Physical Gold - GBP Daily Hedged securities by delivering or receiving Physical Gold that conforms to the London Bullion Market Association's (LBMA) Good Delivery standards. WisdomTree Physical Gold - GBP Daily Hedged securities are traded on exchange with a price that is based on the spot price of Physical Gold multiplied by the applicable metal entitlement adjusted by the relevant FX rate.

Average Return Each Year (GBP)

| Name | QTR | YTD | 1-Year | 3-Year | Inception Date |
|---|--------|--------|--------|--------|----------------|
| GBSP NAV | -0.37% | 25.62% | 34.50% | 21.62% | 3.87% |
| MS Long Gold British Pound Hedged Index | -0.31% | 25.80% | 34.84% | 21.94% | 4.50% |

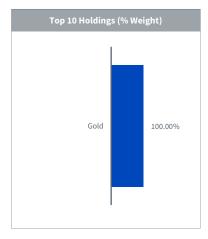

Source: WisdomTree UK, Bloomberg, as of 31/07/2025. Performance for the fund and the index is shown in the listing currency. The fund performance is given net of fees. Investors should be aware that fees have a detrimental impact on the performance of an ETF. Please note this data refers to past performance and is not an indicator for future results and should not be the sole factor of consideration when selecting a product. Performance of less than one year is cumulative.

Potential Benefits

Physically backed, direct Investment in Physical Gold.

Currency risk is hedged away on a daily basis, significantly reducing currency volatility.

UCITS eligible and fully collateralised.

Transparent performance and fees.

Transparency: Metal entitlement is published daily.

Easy to invest: Everything in one product which does not require the investor to manage storage, insurance or delivery of the metal.

Risk Management: You cannot lose more than the amount invested.

Liquidity: Trades on exchange, with multiple authorised participants (APs) and market makers (MMs).

Potential Risks

An investment in an ETP involves a degree of risk. Any decision to invest should be based on the information contained in the relevant prospectus. Prospective investors should obtain independent accounting, tax and legal advice and should consult their professional advisers to ascertain the suitability of this ETP as an investment to their own circumstances.

This ETP is structured as a debt security and not as shares (equity) and can be created and redeemed on demand by authorised participants and traded on exchange just like shares in a company. This ETP is not a UCITS product.

Market Risk: The price of Physical Gold may fluctuate and may be affected by numerous factors including supply and demand, the global financial markets and other political, financial or economic events. The value of securities in this ETP is directly affected by increases and decreases in the value of Physical Gold. Accordingly, the value of a security may go up or down and a security holder may lose some or all of the amount invested but can not lose more than the amount invested.

Liquidity risk: There can be no certainty that securities can always be bought or sold on a stock exchange or that the market price at which the securities may be traded on a stock exchange will always accurately reflect the price of Physical Gold.

The Issuer is reliant on there being FX counterparties available to enter into currency hedge arrangements on a continuing basis and, if no FX counterparties are willing to do so, the ETP will not be able to achieve its investment policy of providing a currency hedge. The currency hedge is reset on a daily basis, which means that investors will be exposed to intra-day movements in the exchange rate. The Issuer is subject to the risk that FX counterparties and other third party service providers may fail to return property belonging to the Issuer or pay money due to the Issuer.

Please see the risks factors section of the Prospectus for a more detailed discussion of the potential risks

Glossary

Authorised participant: Banks or other financial institutions that act as intermediaries between issuers of securities and other investors or intermediaries. Authorised participants subscribe for and redeem securities directly with the Issuer and buy and sell those securities to investors intermediaries either directly or via stock exchanges.

Currency hedge: A process that aims to minimise the effect that movements in a particular exchange rate might have on an investment.

Exposure: An ETC has exposure to an index or commodity if its value is directly affected by movements in the price of that index commodity. Exposure to an index or commodity can be achieved in various different ways. This ETC aims to provide exposure to the Index using swaps.

Good delivery: Rules for Good Delivery are issued by supervisory metals bodies in order to ensure that metals comply with a certain standard.

Market Makers: Banks or other financial institutions that act as intermediaries between buyers and sellers of securities. They buy and sell securities to investors intermediaries either directly or via stock exchanges.

Physically backed: Physically backed ETCs hold the physical metal that the product is tracking. This physical metal is held in a vault by a custodian bank nominated by the provider and gives security holders a further level of security.

Trustee: The trustee is an independent entity that holds the physical metal on trust for the benefit of the security holders in proportion to each security holder's respective entitlement

IMPORTANT INFORMATION

Marketing communications issued in the European Economic Area ("EEA"): This document has been issued and approved by WisdomTree Ireland Limited, which is authorised and regulated by the Central Bank of Ireland.

Marketing communications issued in jurisdictions outside of the EEA: This document has been issued and approved by WisdomTree UK Limited, which is authorised and regulated by the United Kingdom Financial Conduct Authority.

WisdomTree Ireland Limited and WisdomTree UK Limited are each referred to as "WisdomTree" (as applicable). Our Conflicts of Interest Policy and Inventory are available on request.

This marketing communication has been prepared for professional investors, but the WisdomTree products set out in this document may be available in some jurisdictions to any investors, subject to applicable laws and regulations. As the product may not be authorised or its offering may be restricted in your jurisdiction, it is the responsibility of every person or entity to satisfy themselves as to the full observance of the laws and regulations of the relevant jurisdiction. Prior to any application investors are advised to take all necessary legal, regulatory, tax and investment advice on the suitability and consequences of an investment in the products. Past performance is not a reliable indicator of future performance. Any historical performance included in this document may be based on back testing. Back testing is the process of evaluating an investment strategy by applying it to historical data to simulate what the performance of such strategy would have been. Back tested performance is purely hypothetical and is provided in this document solely for informational purposes. Back tested data does not represent actual performance and should not be interpreted as an indication of actual or future performance. The value of any investment may be affected by exchange rate movements. Any decision to invest should be based on the information contained in the appropriate prospectus and after seeking independent investment, tax and legal advice. These products may not be available in your market or suitable for you. The content of this document does not constitute investment advice nor an offer for sale nor a solicitation of an offer to buy any product or make any investment.

An investment in exchange-traded products ("ETPs") is dependent on the performance of the underlying index, less costs, but it is not expected to match that performance precisely. ETPs involve numerous risks including among others, general market risks relating to the relevant underlying index, credit risks on the provider of index swaps utilised in the ETP, exchange rate risks, interest rate risks, inflationary risks, liquidity risks and legal and regulatory risks.

The information contained in this document is not, and under no circumstances is to be construed as, an advertisement or any other step in furtherance of a public offering of shares in the United States or any province or territory thereof, where none of the issuers or their products are authorised or registered for distribution and where no prospectus of any of the issuers has been filed with any securities commission or regulatory authority. No document or information in this document should be taken, transmitted or distributed (directly or indirectly) into the United States. None of the issuers, nor any securities issued by them, have been or will be registered under the United States Securities Act of 1933 or the Investment Company Act of 1940 or qualified under any applicable state securities statutes.
