

WENT WisdomTree Energy Transition Metals

Investment Objective

WisdomTree Energy Transition Metals is a fully collateralised, UCITS eligible Exchange Traded Commodity (ETC) designed to provide investors with a total return exposure to a basket of Energy Transition Metals futures contracts. The ETC provides a total return comprised of the daily performance of the WisdomTree Energy Transition Metals Commodity Index (WTETMCTR), adjusted to reflect fees and costs associated with the product. For example, if the WisdomTree Energy Transition Metals Commodity Index rises by 1% over a day, then the ETC will rise by 1%, excluding fees. However if the WisdomTree Energy Transition Metals Commodity Index falls by 1% over a day, then the ETC will fall by 1%, excluding fees.

Index Description

The Index is designed to track the performance of a diversified basket of metal commodities that are associated with the energy transition theme, which include, but are not limited to Electric Vehicles, Transmission, Charging, Energy Storage, Solar, Wind, and Hydrogen production.

The Index was developed by WisdomTree, Inc. ("WT"), in collaboration with third party specialists in the energy transition space. The selection and weighting of index components is based on an Intensity Rating, created in collaboration with third parties, which measures the exposure and growth metrics for each commodity within the usage of energy transition technologies.

The maximum weight of each commodity is capped at 40% at the rebalance. The Index is reconstituted on a semi-annual basis. Excess and Total Return versions of the Index are calculated and published.

Performance (Net of fees) (USD)

Name	QTR	YTD	1-Year	3-Year	Inception Date
WENT NAV	2.26%	14.99%	52.91%	17.13%	3.41%
WisdomTree Energy Transition Metals Commodity Index	2.47%	15.37%	54.16%	18.10%	4.26%

Source: WisdomTree UK, Bloomberg, as of 31/05/2026. Performance for the fund and the Index is shown in the listing currency. Past performance is not a reliable indicator of future results. Performance of less than one year is cumulative.

Product Information

Asset Class	Commodities
ISIN	XS2425848053
Base Currency	USD
Inception Date	03/03/2022
Currency Hedged	No
Management Fee	0.45%
Annual Swap Rate	0.36%
Domicile	Ireland
Legal Form / Structure	Debt security / ETC
Replication Method	Fully Collateralised Swap
UCITS Eligible	Yes
UCITS Compliant	No
ISA Eligible	Yes
SIPP Eligible	Yes
UK Fund Reporting Status	Yes

Potential Benefits

Gain exposure to the performance of Energy Transition Metals.

UCITS eligible and fully collateralised.

Transparent performance and fees.

Easy to invest: All in one investment product which does not require the investor to manage storage, insurance or delivery of Energy Transition Metals.

Risk Management: You cannot lose more than the amount invested.

Liquidity: Trades on exchange, with multiple authorised participants (APs) and market makers (MMs).

Potential Risks

An investment in an ETP involves a degree of risk. Any decision to invest should be based on the information contained in the relevant prospectus. Prospective investors should obtain independent accounting, tax and legal advice and should consult their professional advisers to ascertain the suitability of this ETP as an investment to their own circumstances.

This ETP is structured as a debt security and not as shares (equity) and can be created and redeemed on demand by authorised participants and traded on exchange just like shares in a company. This ETP is not a UCITS product.

Market Risk: The value of securities in this ETP is directly affected by increases and decreases in the value of the Index. Accordingly, the value of a security may go up or down and a security holder may lose some or all of the amount invested but can not lose more than the amount invested.

Liquidity risk: There can be no certainty that securities can always be bought or sold on a stock exchange or that the market price at which the securities may be traded on a stock exchange will always accurately reflect the performance of the Index.

Currency Risk: The price of securities in this ETP is generally quoted in USD. To the extent that a security holder purchases securities in another currency, the value will be affected by changes in the exchange rate.

Counterparty risk: The Issuer is reliant on there being swap counterparties available to enter into swap agreements on a continuing basis and, if no swap counterparties are willing to do so, the ETP will not be able to achieve its investment policy of tracking the performance of the Index.

Credit Risk: The Issuer is subject to the risk that third party service providers may fail to return property or collateral belonging to the Issuer or pay money due to the issuer. The ETP is backed by swaps. The payment obligations of the swap counterparties to the Issuer are protected by collateral held which is marked to market daily. The collateral is held in segregated accounts at The Bank of New York Mellon. In the event a swap counterparty defaults, the proceeds from realisation of the collateral may be less than what the investor expects. Details of the collateral held can be found in the Collateral section of the WisdomTree website (www.wisdomtree.com).

Please see the risks factors section of the Prospectus for a more detailed discussion of the potential risks

Glossary

Authorised participant: Banks or other financial institutions that act as intermediaries between issuers of securities and other investors or intermediaries. Authorised participants subscribe for and redeem securities directly with the Issuer and buy and sell those securities to investors intermediaries either directly or via stock exchanges.

Collateral held: Cash or other transferable securities which are held independently to reduce the Issuer's credit risk in respect of any single counterparty. For example, if the Index (tracked by the ETP) increases, the amount owed to the Issuer by the swap counterparty increases and therefore additional collateral is transferred by the swap counterparty to reduce the increased risk to the ETP of that counterparty.

Exposure: An ETC has exposure to an index or commodity if its value is directly affected by movements in the price of that index commodity. Exposure to an index or commodity can be achieved in various different ways. This ETC aims to provide exposure to the Index using swaps.

Market Makers: Banks or other financial institutions that act as intermediaries between buyers and sellers of securities. They buy and sell securities to investors intermediaries either directly or via stock exchanges.

Swap counterparty: Typically a large bank or financial institution with whom the Issuer enters into swaps

IMPORTANT INFORMATION

Marketing communications issued in the European Economic Area (“EEA”): This document has been issued and approved by WisdomTree Ireland Limited, which is authorised and regulated by the Central Bank of Ireland.

Marketing communications issued in jurisdictions outside of the EEA: This document has been issued and approved by WisdomTree UK Limited, which is authorised and regulated by the United Kingdom Financial Conduct Authority.

WisdomTree Ireland Limited and WisdomTree UK Limited are each referred to as “WisdomTree” (as applicable). Our Conflicts of Interest Policy and Inventory are available on request.

This marketing communication is intended for all investors; however, the WisdomTree products described in this document and related materials may be restricted in certain jurisdictions and may only be available to particular categories of investors in accordance with applicable laws and regulations. Where a product is not authorised or its distribution is restricted in your jurisdiction, it is the responsibility of any person or entity in possession of this information to inform themselves of, and comply with, all relevant restrictions. Before making any investment, investors should seek appropriate legal, regulatory, tax and investment advice to assess the suitability and implications of investing in these products. Information about WisdomTree products is available at wisdomtree.eu. WisdomTree does not offer investment advice tailored to individual circumstances. Past performance is not a reliable indicator of future performance. Any historical performance included in this document may be based on back testing. Back testing is the process of evaluating an investment strategy by applying it to historical data to simulate what the performance of such strategy would have been. Back tested performance is purely hypothetical and is provided in this document solely for informational purposes. Back tested data does not represent actual performance and should not be interpreted as an indication of actual or future performance. The value of any investment may be affected by exchange rate movements. Any decision to invest should be based on the information contained in the appropriate prospectus and after seeking independent investment, tax and legal advice. The content of this document does not constitute investment advice nor an offer for sale nor a solicitation of an offer to buy any product or make any investment.

An investment in exchange-traded products (“ETPs”) is dependent on the performance of the underlying index, less costs, but it is not expected to match that performance precisely. ETPs involve numerous risks including among others, general market risks relating to the relevant underlying index, credit risks on the provider of index swaps utilised in the ETP, exchange rate risks, interest rate risks, inflationary risks, liquidity risks and legal and regulatory risks.

The information contained in this document is not, and under no circumstances is to be construed as, an advertisement or any other step in furtherance of a public offering of shares in the United States or any province or territory thereof, where none of the issuers or their products are authorised or registered for distribution and where no prospectus of any of the issuers has been filed with any securities commission or regulatory authority. No document or information in this document should be taken, transmitted or distributed (directly or indirectly) into the United States. None of the issuers, nor any securities issued by them, have been or will be registered under the United States Securities Act of 1933 or the Investment Company Act of 1940 or qualified under any applicable state securities statutes.
