WisdomTree Issuer ICAV is authorised in Ireland and regulated by the Central Bank of Ireland and is managed by WisdomTree Management Limited. WisdomTree Management Limited is authorised in Ireland and regulated by the Central Bank of Ireland

### What is this product?

#### Type

The product is an exchange traded fund, which is a share class of a sub-fund of WisdomTree Issuer ICAV, an umbrella Irish collective asset-management vehicle. Under Irish law the assets and liabilities of the product are segregated from other sub-funds within WisdomTree Issuer ICAV

#### Objectives

The WisdomTree Enhanced Commodity UCITS ETF - GBP Hedged Acc (the "Fund") seeks to track the performance, before fees and expenses of the Optimised Roll Commodity Total Return Index (the "Index"). The Fund also aims to outperform the Bloomberg Commodity Index TR over the long term. The Fund invests in US Treasury Bills and uses total return swaps to deliver the Index performance. The swaps are collateralised on a daily basis and reset monthly.

The Index is a British Pound denominated index whose main objective is to provide a broad and diversified UCITS compliant commodity exposure, covering four broad commodity sectors: Energy, Agriculture, Industrial Metals and Precious Metals. The Index uses futures to track the performance of the individual constituents of the Bloomberg Commodity Index TR. The Index employs a rule based approach for each of its components when it 'rolls' from one futures contract to another for each commodity in the Index. Rather than selecting the new future based on a predefined schedule (e.g. monthly) the Index rolls to the future which generates the maximum implied roll yield. The Index aims to maximise the potential roll benefits in backwardated markets and minimise the loss from rolling down the curve in contango markets. The currency hedging methodology consists of entering into a one-month forward currency contract (a contract between two parties to buy or sell a specific currency in the future at an agreed upon exchange rate) in order to hedge the underlying foreign currency exposure arising as a result of the difference between the British Pound and the US Dollar.

The risk of not achieving the objective increases if the product is not held for the recommended holding period specified below.

The Fund will gain indirect exposure to the index components through the use of swaps. By entering into swap agreements with one or more banks whereby the Fund receives payments from the bank when the Index goes up and the Fund makes payments to the bank when the Index goes down. By using swaps, the Fund can efficiently track the upward or downward performance of the Index. The Fund pays certain fees and expenses to the bank(s) for entering into the swaps. The use of swaps results in the management of cash and collateral by the Fund's investment manager.

The Fund may enter into repurchase/reverse repurchase agreements and stock lending arrangements solely for the purposes of efficient portfolio management, subject to the conditions and within the limits set out in the prospectus for WisdomTree Issuer ICAV (the "Prospectus").

Dividends will not be distributed to shareholders in respect of the shares of this class. Income and other profits will be accumulated and reinvested on behalf of the shareholders.

Typically, only Authorised Participants (i.e. brokers) can purchase Shares from or sell Shares back to the Fund. You may trade this product on various stock exchanges at your own discretion.

Further information: Copies of the Prospectus documentation and the latest annual and interim financial statements are available in English free of charge from [www.wisdomtree.eu](http://www.wisdomtree.eu). The Prospectus and financial statements are prepared for WisdomTree Issuer ICAV rather than separately for the product.

Switching and redemptions: Switching of shares between and redemptions of shares in sub-funds of WisdomTree Issuer ICAV is not possible for investors who purchase shares on exchange. Switching and redemptions may be available to authorised participants who deal directly with the Issuer.

#### Intended Retail Investor

This product is intended for basic retail investors who: (i) can bear loss of capital, are not seeking to preserve capital and who are not looking for capital guarantee; (ii) have specific knowledge or experience of investing in similar products and in financial markets; and (iii) seek a product offering exposure to the performance of the underlying asset(s) and have an investment horizon in line with the recommended holding period stated below.

#### Term

This product does not have a fixed term. The term will depend on how long you choose to hold the product. The Issuer is entitled to terminate this product unilaterally.

### What are the risks and what could I get in return?

Lower Risk

1

2

3

4

5

6

7

Higher Risk

The risk indicator assumes you keep the product for 5 years. **The actual risk can be significantly higher if you cash in at an early or later stage and you may get back less.**

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 5 out of 7, which is a medium-high risk class.

This rates the potential losses from future performance at a medium-high level.

**Be aware of currency risk. If the trading currency is different to the base currency, you will receive payments in a different currency, so the final return you will get will depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.**

The Issuer may terminate this product unilaterally, and in certain compulsory redemption events may do so on very short notice as set out in the prospectus.

This product does not include any protection from future market performance so you could lose some or all of your investment.

### Factors affecting the return of the product at the end of the recommended holding period

Your return on the product at the end of the recommended holding period will principally be affected by the performance of the underlying[s] over the recommended holding period and of the exchange rate between the product currency and the currency in which you bought the product.

What could affect my return positively?

+ An increase in the level of the Optimized Roll Commodity Monthly GBP-Hedged Total Return Index.

What could affect my return negatively?

+ A decrease in the level of the Optimized Roll Commodity Monthly GBP-Hedged Total Return Index.

The factors listed above provide general guidance on how changes in the level of the Optimized Roll Commodity Monthly GBP-Hedged Total Return Index may affect your return. The precise impact will depend on the timing and magnitude of these changes, and the above list should not be viewed as guaranteeing a particular outcome. See "What is this product?" for a discussion of what you will receive when you exit the product.

In severely adverse market conditions you may lose your entire investment.

### What happens if WisdomTree Issuer ICAV is unable to pay out?

Segregated liability: The product is a sub-fund of WisdomTree Issuer ICAV, an umbrella Irish collective asset-management vehicle. Under Irish law the assets and liabilities of the product are segregated from other sub-funds within WisdomTree Issuer ICAV and the assets of the product will not be available to satisfy the liabilities of another sub-fund of WisdomTree Issuer ICAV. In case of a default by the Issuer, any claims made against the Issuer will be satisfied purely out of the assets of the relevant sub-fund and in these circumstances you may suffer a loss if you cannot realise the full value of your investment.

The product is not protected by an investor compensation or guarantee scheme.

## Key Information Document

### What are the costs?

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs and how they impact your investment.

### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does (where applicable). The amounts shown here are illustrations based on an example investment amount and different possible investment periods:

We have assumed:

1. In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in a moderate scenario
2. 10,000 is invested (GBP)

Investment £10,000	If you exit after 1 year	If you exit after 5 years
<b>Total costs</b>	£77.04	£449.43
<b>Annual Cost impact(*)</b>	-0.77%	-0.77%

(\*)This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the end of the recommended holding period your average return per year is projected to be 4.22% before costs and 3.45% after costs.

### Composition of Costs

The table below shows:

1. The impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period.
2. The meaning of the different cost categories

One-off costs upon entry or exit		If you exit after 1 year
<b>Entry costs</b>	We do not charge an entry fee when purchased on exchange.	£0.00
<b>Exit costs</b>	We do not charge an exit fee when sold on exchange.	£0.00
Ongoing costs taken each year		If you exit after 1 year
<b>Management fees and other administrative or operating costs</b>	0.35% of the value of your investment per year. This is an estimate based on actual costs over the last year.	£35.00
<b>Transaction costs</b>	0.42% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	£42.04
Incidental costs taken under specific conditions		If you exit after 1 year
<b>Performance fees</b>	There is no performance fee for this product	£0.00

### How long should I hold it and can I take money out early?

Recommended holding period: 5 years. You will be able to sell this product at any time on the stock exchanges where it is listed; however, there is no cooling off period or cancellation period. Exiting prior to the recommended holding period will not give rise to an exit charge or penalties or contingent fees, however it will cause the risk and the performance profile of the product to be different to what is indicated in this document.

### How can I complain?

In case of any unexpected problems in the understanding, trading or handling of this product, please feel free to directly contact WisdomTree.
