WisdomTree Strategic Metals UCITS ETF - GBP Hedged Acc

ISIN: IE0003XI1PW0

a share class of WisdomTree Strategic Metals UCITS ETF (the "Fund") which is a sub-fund of WisdomTree Issuer ICAV. Managed by WisdomTree Management Limited.

Objectives and Investment Policy

- The Fund seeks to track the price and yield performance, before fees and expenses, of the WisdomTree Energy Transition Metals Commodity UCITS Total Return Index (the "Index").
- The share class seeks to deliver exposure to the Index while at the same time neutralising exposure to fluctuations of the Sterling, by implementing an FX hedging methodology.
- The Index is designed to track the performance of a diversified basket of metal commodities that are associated with energy transition themes, which include, but are not limited to, electric vehicles, transmission, charging, energy storage, solar, wind, and hydrogen production.
- The Index was developed by WisdomTree, Inc. ("WTI"), in collaboration with third-party specialists involved in the energy transition industry.
- The selection and weighting of component commodities in the Index (each a "Relevant Commodity", together the "Relevant Commodities") are based on an intensity rating (the "Intensity Rating"). The Intensity Rating measures the exposure and growth metrics for each Relevant Commodity within the usage of energy transition technologies, as well as each Relevant Commodity's market balance.
- The maximum weight of each Relevant Commodity in the Index is capped at 20% at the Index rebalance. The Index is reconstituted on a semi-annual basis in January and July.
- The Fund may have an indirect exposure to an Index constituent of up to 20% of its net asset value. This limit may be raised to 35% for a single Index constituent when exceptional market conditions apply (such as the dominance of a particular Index constituent).
- The Fund will gain indirect exposure to the Index constituents through the use of swaps. By entering into swap agreements with one or more banks whereby the Fund receives payments from the bank when the Index goes up and the Fund makes payments to the bank when the Index goes down. By using swaps, the Fund can efficiently track the upward or downward performance of the Index. The Fund pays certain fees and expenses to the bank(s) for entering into the swaps. The use of swaps results in the management of cash and collateral by the Fund's investment manager.
- In order to achieve its objective, the Fund will employ a "passive management" (or indexing) investment approach and will invest in a portfolio of instruments that so far as possible and practicable replicate the performance of the Index.
- The Fund may enter into repurchase/reverse repurchase agreements and stock lending arrangements solely for the purposes of efficient portfolio management, subject to the conditions and within the limits set out in the prospectus for WisdomTree Issuer ICAV (the "Prospectus").
- Shares of the Fund ("Shares") are listed on one or more stock exchanges. Typically, only Authorised Participants (i.e. brokers) can purchase Shares from or sell Shares back to the Fund. Other investors can purchase and sell Shares on exchange on each day the relevant stock exchange is open.
- Distribution policy: Dividends will not be distributed to shareholders in respect of the shares of this class. Income and other profits will be accumulated and reinvested on behalf of the shareholders.
- Recommendation: This Fund may not be appropriate for short-term investment.
- Currency: The base currency of the Fund is US Dollar. The currency of denomination of this share class is Sterling.
- For full investment objectives and policy details, please refer to the supplement to the Prospectus for the Fund (the "Supplement").
