Objectives and Investment Policy

- The Fund seeks to track the price and yield performance, before fees and expenses of the WisdomTree New Economy Real Estate UCITS Index (the "Index").
 - The Index is designed to track the performance of global companies from developed markets that have exposure to new economy real estate such as technology, science and/or e-commerce related business activities.
 - To be included in the Index, companies must be involved in new economy real estate activities such as:

- In addition, the sum of all securities over 5% shall not exceed 35% at rebalance, and any excess weight will be subtracted and distributed on a proportional market
- capitalisation weighted basis.
- The Fund may have an indirect exposure to an Index constituent of up to 20% of its Net Asset Value. This limit may be raised to 35% for a single Index constituent when exceptional market conditions apply (such as the dominance of a particular Index constituent).
- The Index is rebalanced on a semi-annual basis in March and September.
- The Fund may enter into repurchase/reverse repurchase agreements and stock lending arrangements solely for the purposes of efficient portfolio management, subject to the conditions and within the limits set out in the prospectus for WisdomTree Issuer ICAV (the "Prospectus").
