

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

WisdomTree Europe Equity UCITS ETF - USD Hedged Acc

ISIN: IE00BYQCZP72

a share class of WisdomTree Europe Equity UCITS ETF (the “Fund”)
which is a sub-fund of WisdomTree Issuer ICAV. Managed by WisdomTree Management Limited.

Objectives and Investment Policy

- The Fund seeks to track the price and yield performance, before fees and expenses of the WisdomTree Europe Equity UCITS Index (the “Index”).
- The Index is rule-based and fundamentally weighted, and is comprised of dividend-paying companies from the Eurozone region, selected based on a revenue exposure and a composite risk score (“CRS”) screening which is made up of two factors (quality and momentum) each carrying an equal weighting. By selecting companies that derive 50% or more of their revenue from countries outside of Europe, the Index is tilted towards companies with a more significant global revenue base.
- The share class seeks to deliver exposure to the Index while at the same time neutralising exposure to fluctuations of the Euro relative to the US Dollar by implementing a hedging methodology used in the Hedged Index.
- To be included in the Index, companies must meet minimum market capitalisation and liquidity requirements, have paid dividends over the prior annual cycle and must be incorporated and listed in one of the countries in Eurozone (i.e. Austria, Belgium, Finland, France, Germany, Ireland, Italy, Netherlands, Portugal or Spain). The Index excludes companies based on WisdomTree’s environmental, social and governance criteria as outlined in the Index methodology.
- Companies within the eligible universe are ranked by CRS. Companies that derive 50% or more of their revenue from countries outside of Europe and which do not fall in the bottom 10% of the CRS are selected for inclusion within the Index. Furthermore, a selected company might be removed from the Index if it is ranked in Top 5% by dividend yield but falls in the bottom 50% of the CRS.
- The weight of each component company in the Index is calculated based on the aggregate cash dividends (the “Dividend Stream”) and its CRS. The component companies with the top 20% will have their Dividend Stream adjusted by 1.5x respectively (the “Adjusted Dividend Stream”). Component companies are then weighted annually in the Index to reflect their proportionate share of the Adjusted Dividend Stream. Companies which pay more dividends and have higher CRS are more heavily weighted.
- The Index is “reconstituted” on an annual basis.
- In order to achieve its objective, the Fund will employ a “passive management” (or indexing) investment approach and will invest in a portfolio of equity securities that so far as possible and practicable consists of a representative sample of the component securities of the Index and forward foreign exchange contracts that so far as possible and practicable replicate the currency hedging methodology of the Hedged Index.
- The currency hedging methodology consists of entering into forward exchange contracts (contracts between two parties to buy or sell a specific currency in the future at an agreed upon exchange rate) in order to hedge the Euro exposure arising as a result of the difference between the Euro and the US Dollar.
- As it may be difficult, expensive or otherwise inefficient to purchase all the securities in the Index, the Fund may also hold shares or other securities which produce a similar investment return to securities in the Index or may invest in collective investment schemes.
- The Fund may enter into repurchase/reverse repurchase agreements and stock lending arrangements solely for the purposes of efficient portfolio management, subject to the conditions and within the limits set out in the prospectus for WisdomTree Issuer ICAV (the “Prospectus”).
- Shares of the Fund (“Shares”) are listed on one or more stock exchanges. Typically, only Authorised Participants (i.e. brokers) can purchase Shares from or sell Shares back to the Fund. Other investors can purchase and sell Shares on exchange on each day the relevant stock exchange is open.
- Distribution policy: Dividends will not be distributed to shareholders in respect of the shares of this class. Income and other profits will be accumulated and reinvested on behalf of the shareholders.
- Recommendation: This Fund may not be appropriate for short-term investment.
- Currency: The base currency of the Fund is US Dollar. The currency of denomination of this share class is US Dollar.
- For full investment objectives and policy details, please refer to the supplement to the Prospectus for the Fund (the “Supplement”).

Risk and Reward Profile

- The categorisation above is not guaranteed to remain unchanged and may shift over time.
- The lowest category (1) does not imply a risk-free investment.
- The risk indicator was calculated incorporating simulated historical data and may not be a reliable indication of the future risk profile of the Fund.
- The SRRI categorisation above (6) is due to the nature of the Fund’s investments and risk associated with those investments, including:
 - The value of equities and equity-related securities can be affected by daily stock market movements. Other influential factors include political, economic news, company earnings and significant corporate events.
 - There is no assurance that any appreciation in the value of investments will occur, or that the investment objective of the Fund will be achieved.
 - Investment risk may be concentrated in specific sectors, countries, currencies or companies. This means the Fund is more sensitive to any localised economic, market, political or regulatory events.
 - The return of the forward currency contracts may not perfectly offset the actual fluctuations between the Euro and the US Dollar.
 - FDI Risks: include (i) failure to predict accurately the direction of the market movements and (ii) market risks of lack of liquidity or lack of correlation between the change in the value of the underlying asset and the value of the Fund’s derivatives.
 - Currency risk: The Fund invests in securities denominated in currencies other than its base currency. Changes in the exchange rates may adversely affect the performance of the Fund.

- Risks not covered by the indicator, but which are materially relevant to the Fund include:
 - Tracking error risk: The Fund's performance may not exactly track the Index. This can result from market fluctuations, changes in the composition of the Index, transaction costs, the costs of making changes to the Fund's portfolio and other Fund expenses.
 - There can be no certainty that Shares can always be bought or sold on a stock exchange or that the market price will reflect the NAV of the Fund.
 - It may be difficult for the Fund to buy or sell certain investments in some market conditions. Consequently, the price obtained when the Fund buys or sells securities may compare adversely to the price under normal market conditions.
 - Counterparty Risk: The Fund is subject to the risk that third parties with which the Fund may transact and who may provide services such as the safekeeping of assets may go bankrupt or fail to pay money due to the Fund or return property belonging to the Fund.
 - Operational risk: There is a risk of default or error within the different service providers involved in managing and servicing the Fund, and valuing the portfolio.
 - Hedging risk: The Fund's hedging methodology is designed to minimise the impact of currency fluctuations on hedged share class returns. The return of the forward currency contracts may not perfectly offset the actual fluctuations between the underlying portfolio currencies and the hedged share class currency.
- For a complete overview of all risks attached to this Fund, refer to the section entitled “Risk Factors” in the Supplement and the Prospectus.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	None*
Exit charge	None*
Charges taken from the Fund over a year	
Ongoing charges	0.58%**
Charges taken from the Fund under certain specific conditions	
Performance fee	None

* These are the maximum fees and charges which are currently payable by authorised participants dealing directly with WisdomTree Issuer ICAV. The Fund has the right to charge authorised participants an entry charge up to a maximum of 3% and an exit charge up to a maximum of 3%. The Fund is currently not exercising its entitlement to apply entry and exit charges.

*Entry and exit charges are not applicable to secondary market investors. As the Fund is an ETF, secondary market investors will not typically be able to deal directly with WisdomTree Issuer ICAV. Investors buying Shares on exchange will do so at market prices which will reflect broker fees and/or other charges.

* Authorised participants dealing directly with the Fund will pay related transaction costs.

* For authorised participants dealing directly with the Fund, switching between sub-funds may incur a maximum switching charge of 3%. The Fund is currently not exercising its entitlement to apply switching charges.

** The ongoing charges may vary year on year. It excludes portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in another investment fund.

Please see "Fees and Expenses" section of the Prospectus and "Fees" and "Share Dealing" ("Subscriptions following the initial offer period" and "Redemptions" sub-sections) sections of the Supplement for further information about charges.

Past Performance

Historical Performance

- Historical performance is not an indication of future performance and any investments may go down in value.
- The chart shows the share class' annual performance as of 31/12/2024 calculated in US Dollar
- The Fund was launched in 2015
- Share class launch date: 01/11/2016
- Performance is shown after deduction of the ongoing charges. It excludes entry and exit fees.
- *Index Name: WisdomTree Europe Hedged Equity UCITS Index
